BKT POWERTRAILER SR331

🇬🇧 POWERTRAILER SR 331 is BKT's brand-new All Steel radial tire specifically designed for trailers and tankers in transport applications. Engineered for both field and road usage, POWERTRAILER SR 331 distinguishes itself with good flotation properties in the fields as well as excellent smooth ride on asphalt. The All Steel construction stands for high load capacity, extraordinary casing stability, and an extended tire life. The special sidewall rib provides exceptional protection against impacts and the effects of tire rubbing, while the hexagonal bead with chafer reinforcement makes sure that the tire perfectly fits on the rim. In addition, the multi-block tread pattern ensures reduced rolling resistance, a uniform contact pressure, and smooth ride. Thanks to all these features, POWERTRAILER SR 331 is synonym for fuel economy and road comfort.
