# SNOW GRIP

SNOW GRIP is specifically engineered for forklifts operating in low-temperature environments. The unique tread design features multiple gripping edges for superior grip on fresh or compact snow, resulting in excellent cornering and braking performance on icy and snowy surfaces. The dual bead construction along with the strong casing and reinforced sidewall provides higher load capacity, excellent stability and handling in lift mode in addition to a long tire life.

	Tire size	Type	PR	LI/SS	Version	S.W. (mm)	O.D. (mm)	SLR (mm)	RC (mm)	RIM	
										Rec.	Alt.
Ø 16"	7.50 - 16	TT	12	131 A2	STD	210	810	-	-	6.0	-

STD: Standard

Tolerances: O.D. ± 2% - S.W. ± 2% - RC ± 2.5% - LI/SS = Load Index / Speed Symbol; S.W. = Section Width; O.D. = Overall Diameter; SLR = Static Loaded Radius; RC = Rolling Circumference
