AT 523

BKT's AT 523 is a multifunctional tire designed to provide reliable performance in agricultural, turf, and industrial applications. Its tread design ensures excellent traction and self-cleaning capabilities, which are key features for tackling a variety of surfaces: from rammed earth and turf to hard surfaces typical of industrial settings. The flatter profile and enlarged center block, combined with the R-1 and R-4 type design, provide greater stability on the road, while the rounded shoulders protect the turf, preserving its integrity even under intensive operating conditions. The strong carcass and a cut-resistant tread compound make AT 523 particularly durable. This combination of ruggedness, versatility and ease of use makes AT 523 the ideal solution for those who need a single tire that can cope with a variety of situations: from soil preparation and lawn operations to industrial use.

	Tire size	RIM		S.W. (mm)	O.D. (mm)	SLR (mm)	RC (mm)	Version	PR	Type	LI/SS
		Rec.	Alt.
