

AS 504

AS 504 is an agro-industrial tyre mainly designed for soil tillage, implement and material-handling operations. This tyre, which features excellent self-cleaning properties and increased grip, is suitable for field trailers and telehandlers. AS 504 is available in several versions to meet specific end-user requirements: an "HD" version with a special cut-and-chip resistance compound, while the "special" version has a reinforced casing that ensures a longer tyre life.
