How Cut Offs are Applied in UIIC AO Recruitment Exam

As per UIIC AO notification, the cut offs will be applied at two stages.

Stage 1 (Objective Test)

Sectional and Total Cut-offs: You need to clear the minimum cut off for each section. In addition, you also need to clear the overall cut off of the objective exam.

If you clear each section's cut offs but fail to clear the overall cut off, you will be disqualified. Note that the overall cut off will be much higher than the sum of the sectional cut offs. So your aim should be to maximize your overall score, even while you keep in mind to perform well uniformly in all sections.

Stage 2 (Descriptive Test)

You also need to clear the cut off of the descriptive exam. These cut offs are added to the final total, but only if you clear the cut offs of Stage 1 (objective test). The cut offs of the Descriptive Paper are pre-decided.
