Try out the different strategies of attempting the paper so that you score maximum marks in 60 Minutes. Manage your time in such a way that you attempt all the in the three sections. Try to figure out which questions consume more time so that you can attempt it accordingly. Moreover, during the OICL exam preparation as well as during the exam, focus on the amount of time you take for a particular question. Moreover, do not spend too much of your time on any question. Try to move on to the next question and leave that question for the time left with you in the end. Focus on the Section you are good in but also be aware of the Sectional Cut Off.
