BMW DRIVING EXPERIENCE.

If you’ve ever wondered why a BMW is the Ultimate Driving Machine, a BMW Driving Experience course is for you. If you’ve ever wondered what an Ultimate Driving Machine is capable of, this is the Ultimate test-drive.

BMW Driving Experience was introduced in 1977, the first of its kind initiated by an automotive manufacturer to improve the skills, reactions and awareness of drivers.

Today more than ever, the program offers drivers a positive, exhilarating experience, along with an excellent education and an enthralling opportunity to accelerate their driving abilities. This is all conducted behind the wheel of a dynamic range of Ultimate Driving Machines.

The aim of the program is to enhance each participant’s driving ability by developing attitudes and skills through a structured sequence of courses. Each course takes participants through an increasingly challenging mix of low and high speed driving exercises, that help them respond effectively in emergency situations and become progressively more confident, safe and enthusiastic drivers.

BMW Driving Experience offers a range of courses which are conducted at Australia’s leading facilities, including the world renowned Phillip Island Grand Prix Circuit. All BMW Driving Experience courses are supervised by highly-trained instructors.

1. BMW Compact Driving Experience
A half day taster of the BMW Driving Experience courses.

2. BMW Intensive Driving Experience
An exciting introduction into performance driving, designed for confident drivers.

3. BMW M Dynamic Driving Experience
After completing our Intensive Training course, drivers can take their skills to another level with this high-performance course designed to test their ability to the fullest.
