BMW ConnectedDrive.

The BMW ConnectedDrive Services & Apps are on hand to make sure you have more time for the important things in life. Various innovations by BMW make things more convenient for you every day – whenever you want.

**Real Time Traffic Information (RTTI)**
Collects current traffic information about motorways, main and country roads and the most important urban routes. It relays information about delays and dangers almost instantly and suggests the best alternative routes.

**INTELLIGENT VOICE ASSISTANT**
Offboard voice processing offers a functional extension of the intelligent voice assistant through server-based processing of speech input.

**BMW Emergency Call**
Automatically establishes a voice connection with the local emergency services without the use of a mobile phone. It transmits information about the vehicle’s current location and can be triggered manually in case other road users require help.

**Tele Service**
Is a collection of intuitive technology features standard across the BMW range that make your life as a BMW owner easy, from remembering to book a due service, to monitoring the health of your battery and even providing technical support if needed.

**Concierge Service**
Is a personal telematic call service that connects you to a BMW operator, who will be able to quickly access the information you need 7 days a week, 24 hours a day.

**Apple CarPlay®**
Enables wireless and comfortable usage of your iPhone® in your vehicle via Apple CarPlay®. Selected smartphone content can be displayed and operated via the user interface of the vehicle.

**BMW Connected+**
Provides a more extensive level of integration of the BMW Connected App in your BMW. You can enjoy seamless connectivity between all BMW Connected touchpoints and your BMW and thus benefit from the personalised services supported by the BMW Open Mobility Cloud.
The BMW Connected app learns your mobility routines, reads your calendar and knows when you need to leave, providing customers with a personal experience that is integrated into their everyday life. The app will allow customers to fully unleash the capabilities of BMW's innovative technologies intuitively through your smartphone.

**Learned destinations**
BMW Connected learns your most frequently travelled routes and provides them as ‘learned destinations’ for future suggestions. If destinations are repeatedly visited, they are automatically listed at the usual time.

**Digital Key**
Digital Key for5 makes it easy to share your digital key with family and friends. You can send a digital key for your car to as many as five other people using the BMW Connected App. It can be installed on a compatible Samsung smartphone in just a few steps, allowing these people to unlock and lock your BMW and to start the engine.

**Estimated time of arrival**
Never be late again with detailed updates of your regular routes and alternative options so you can manage your journey and avoid delays.

**Remote Services**
enables customers to use a smartphone to locate where their BMW is parked, to lock and unlock the car remotely and much more.

**Door to door guidance**
Get detailed walking directions from your parking spot to your destination. A map with a location pin also shows where you last parked once you’re ready to head back to your car.

**Time to leave**
A notification on your Apple iPhone®, compatible Android phone, your Apple Watch® or Samsung Gear S3® watch will recommend a time to leave in order to arrive on time.
IMMERSE YOURSELF IN THE WORLD OF BMW.
