[1] IMPORTANT INFORMATION ABOUT OUR DATA
Fuel consumption is determined in accordance with the ECE driving cycle (93/116/EC) made up of approximately one third urban traffic and two thirds extra-urban driving (based on the distance covered). CO2 emissions are measured in addition to fuel consumption. All data is presented based on a vehicle of this model with standard equipment as tested for the German market. Where those vehicles are available in a right hand drive variant, they can be specially ordered from the factory by New Zealand customers. Figures given for unladen weight in kg is based on vehicle with standard equipment and includes a 90 per cent tank filling, 68 kg allowance for the driver and 7 kg allowance for luggage. Optional equipment may increase this figure. The performance and fuel consumption rates listed are based on the use of RON 98 fuel. Actual figures for fuel consumption and emissions will depend on many factors including traffic conditions, driving habits, prevailing conditions and your vehicle’s actual equipment, condition and use. Test figures are unlikely to be achieved in real world driving conditions and should only be used for comparing one vehicle with another. Further information about the official fuel consumption and the official specific CO2 emissions for new passenger vehicles can be found in the ‘New Passenger Vehicle Fuel Consumption and CO2 Emission Guidelines’, which are available free of charge at all sales outlets, from Deutsche Automobil Treuhand GmbH (DAT), Hellmuth-Hirth-Str. 1, 73760 Ostfildern, Germany, or at http://www.dat.de/en/offers/publications/guideline-for-fuel-consumption.html. Effective from 1st June 2020.

Incorporating new generations of professional multimedia, BMW Live Cockpit Professional features touch-capable, high resolution control display, fully digital instrument panel and includes the ConnectedDrive digital services below:

**BMW Intelligent Personal Assistant** allows you to communicate with your vehicle. It acts as a personal assistant and vehicle expert able to remember many of the customer's vehicle settings and learns with each use. It helps you to get to know your BMW even better.

**Caring Car** in your BMW will look after you. Want to arrive with fresh energy, or relax when stressed? If you say, 'Hey, BMW. I’m tired,' or 'Hey, BMW. I’m feeling stressed,” the BMW Intelligent Personal Assistant will activate the Vitalize or Relax Caring Car Programme.

**Automate My Habits** is an intelligent feature that learns and automates your preferred settings on request, like turning on the seat heating at setting three when it’s cold. You can start enjoying the journey while your BMW takes care of your well-being. More automation options will be added in the future.

**Remote Software Upgrade** installs the latest software on your BMW. With Remote Software Upgrade, your BMW will always be like new. Convenient, reliable and stress-free – without having to visit your BMW service partner. Upgrades are installed over-the-air, just as they are for your smartphone.

**Digital Key.**
Why put your key in the ignition if you have your smartphone with you? The Digital Key allows you to lock and unlock, your
