Roll and Compare Numbers Bingo

Using a 10 sided die and a regular die, players roll and then find a number that is **GREATER** than the number on the die using the tens place for comparison.

23	35	46	52
55	87	98	
46	67	5	
44	24	63	
28	31	59	
61	88	73	

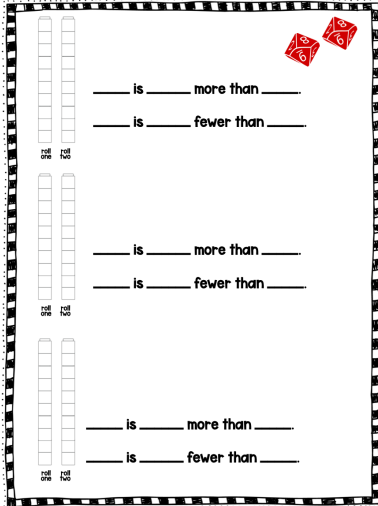

Roll and Compare Numbers Bingo

Using a 10 sided die and a regular die, players roll and then find a number that is **LESS** than the number on the die using the tens place for comparison.

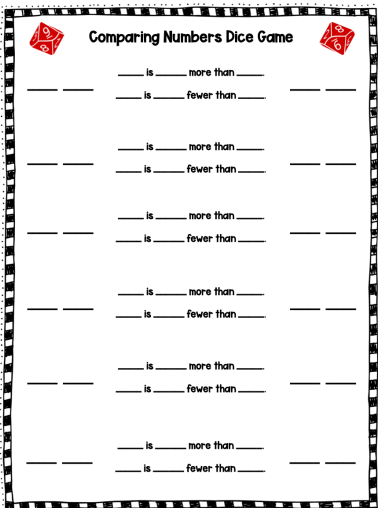

23	35	46	52
43	65	87	98
29	46	67	5
94	44	24	63
76	28	31	59
8	61	88	73

Boy Mama Teacher Mama

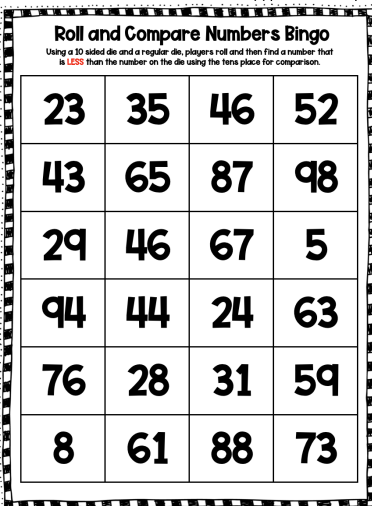

What's Included?

Using a ten-sided die, students roll once and color "roll one." Students then repeat with "roll two." Finally, students complete the sentences correctly.

Using a ten-sided die, students roll once and color "roll one." Students then repeat with "roll two." Finally, students complete the sentences correctly.

Using a ten-sided die and a regular 6 sided die, students roll the dice, create a number and then find and mark a number on the bingo board that is either greater than or less than that number on the board.
