

# 2026 BPI Summit Sponsorship Prospectus

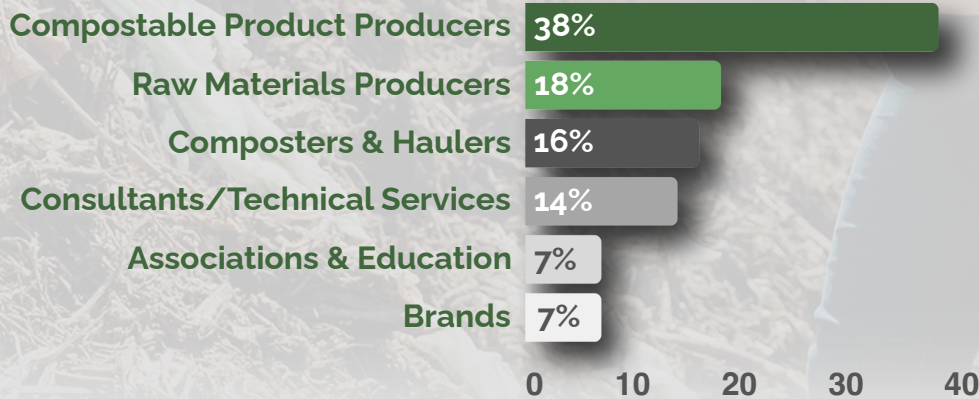

October 14-15, 2026 | Detroit, Michigan

This year, the fourth annual BPI Summit is taking a more immersive approach—bringing participants beyond the usual conference space and into the field through industry tours, hands-on learning, and real-world applications. By prioritizing in-person connection and shared experience, attendees will see composting systems in action, from infrastructure to end markets. Your sponsorship helps make these experiences possible while advancing the growth and visibility of compostables, composting infrastructure, and the circular bioeconomy. **See the 2025 BPI Summit attendee data below.**

# 2026 BPI Summit Sponsorship Prospectus

October 14-15, 2026 | Detroit, Michigan

As our most immersive event to date, the 2026 BPI Summit will feature three industry tours, real-world learning, a focused half-day Summit, and an evening reception across two days in Michigan. By stepping into operational composting environments, attendees will gain a deeper understanding of how systems work in practice. **Below are the various sponsorship benefits your company or organization will receive.**

Please contact Emily Kahn to become a sponsor: [emily@greenfernevents.com](mailto:emily@greenfernevents.com) | (703) 855-4310
