

**Bridge to Home at Brandon Wilde is an extension to therapy for those who are not ready to return home and require further rehabilitation to regain strength and independence.**

### Bridge to Home at Brandon Wilde is optimal for:

- Patients who have been in the emergency room or hospital who do not meet the 3-night Medicare qualifying hospital stay benefit requirements
- Primary care physician referrals for a short-term stay for further rehabilitation and support
- Respite stay for family members who are struggling to care for their loved one at home
- Those who have been discharged to home but could benefit from further intensive therapy

### What Bridge to Home at Brandon Wilde means to you:

- Focuses on achieving well-being and optimal health
- Promotes recovery in a home-like setting
- Includes the use of the Brandon Wilde Wellness Center for physical strengthening, continued intensive therapy, and aqua therapy
- Reduces hospital re-admissions
- Personalized, goal-oriented approach
