

INDUS NET TECHNOLOGIES Work Transformation

Brio played a key role in helping INT. (Indus Net Technologies) implement and manage the change to Google Workspace. Brio worked with INT. to assess their needs, develop a plan for implementation, and provide training and support to users.

The challenge

Google Workspace has helped INT. to improve communication and collaboration, increase productivity, improve security, and enhance compliance. It has done this by providing a suite of cloud-based tools that are easy to use, secure, and reliable.

The solution

Solution implemented for GWS was a success. It helped INT. with their challenges by providing a seamless and collaborative digital environment for productivity. It also helped them improve their efficiency and flexibility in tackling various tasks and projects. The benefits of using GWS include improved collaboration and productivity, as well as accessibility from any device with a internet.

The result

By using Google Workspace products such as Gmail, Google Slides, Docs, Sheets, Calendar, Meet, and Forms, INT. was able to improve its productivity and collaboration. This enabled seamless communication and collaboration among teams, whether they were in the same office or working remotely. Additionally, the use of GWS's Endpoint Management helped to improve device security.

“ Overall, the use of Google Workspace products helped INT. to improve its productivity and collaboration, which led to a more efficient and effective organization. ”

Raja Kabiraj, System Head- IT, INDUS NET TECHNOLOGIES
