Decodable Story

Winter

Winter lasts from December to March. In winter, the days get shorter and the temp drops.

We put on a lot of layers in the winter. Long sleeves and pants replace shorts and shirts. Snow boots and coats replace flip-flops and swim trunks. It is normal to see kids in scarfs and gloves.

Winter can be a wet time with a lot of rain. When it gets under thirty-two degrees, the rain can freeze. When that happens, the rain turns to snow or sleet. Snow can be soft or hard. It can be icy or fluffy.

Many kids like to play in the snow. Some kids wait all summer and fall just to make a snowman! Some like to have snowball fights. Other kids choose to sled down big hills.

Not all kids get to play in the snow. In some places, winter is still too warm to get snow.

Snow or no snow, winter is a fun season full of holidays and good times!
