

# TUBE TABLE

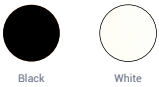

**DESIGN BY**

Jesse Visser

**DESCRIPTION**

The synthesis between production technique and materials results in a minimalistic design with pure detailing. The Tube Table is a sturdy and lightweight table, constructed from aluminum with an added Fenix nanotech matt material top, suitable for residential, office, hospitality and retail use. The table is available in black and white with specially designed matching roundhead screws.

**TECHNICAL DETAILS**

**MATERIALS**

table top: Fenix NTM

base: coated aluminum

**CLEANING INSTRUCTIONS**

**Fenix NTM:**

Fenix NTM surface should be cleaned regularly but does not require any special maintenance, just a damp cloth with warm water or mild detergents. Almost all normal household cleaning products or disinfectants are perfectly well tolerated. When needed, it is suggested to use the magic sponge for cleaning the surface.

**coated aluminum:**

Dust with a soft, dry cloth or clean with soapy water. Can be moistured slightly with spiritus. Treat once a year with acidfree vaseline.
