Intro **Hello!** I'm Brux Romuar and I'm a Lead Frontend Developer with 7 years of experience in making modern, interactive, standards-compatible, accessible web applications and websites from the ground up to the benefit of my clients.

Experience **Head of Design**

2021 · Ingenuity Inc. · ingenuity.ph

I was responsible for managing a team of designers and frontend developers to deliver web and mobile applications with solid foundations on user-centric design and performant code. I also:

- Created the company design system and guidelines to improve coordination between designers and developers during remote work.
- Reinstated design reviews and improved design processes and resources for remote asynchronous designer-designer coordination.
- Led website redesign for the new Ingenuity branding focused organic and the human element of the organization.

Experience

Lead Frontend Developer

2018 - 2020 · Ingenuity Inc. · ingenuity.ph

I was responsible for identifying and setting frontend standards, preferred tooling and picking technologies that conform to the company's goals and current market trends. I also:

- Implement project features using React, Vue.js and Typescript.
- Set and enforced software good development practices that benefit projects and reduce technical debt.
- Provided technical guidance to mentees and team members.

Senior Frontend Developer

2018 (Part-time) · PushCoin Inc. · pushcoin.com

Worked on setting up project frameworks, architecture and advising the CTO on modern technologies that were used on bringing existing products up to date. I also:

- Implemented new project features on the parent-facing web application and update existing ones therefore improving user experience, code maintainability and information architecture.
- Introduced Typescript with Vue.js to improve code quality and reduce the possibility of future bugs and issues.
- Implemented an updated landing site using static-site generation.

Software Engineer

2016 - 2018 · Ingenuity Inc. · ingenuity.ph

Worked on several software engineering projects for the web. I also:

- Implemented features assigned to me on several projects.
- Reworked the company's knowledge base and website using Wordpress and React.

Skillset **Frontend**

- React and Vue
- Typescript, Javascript, ES6 and GraphQL
- HTML 5, CSS 3, SASS, Bootstrap, Tailwind and Material
- Geolocation, Web Push, Websockets and Service Workers
- Cross-browser development and Responsive design

Design

- Figma, Adobe XD and Sketch
- Adobe Photoshop, Adobe Illustrator and Adobe After Effects

Backend

- Node.js, Express, Koa and Feathers
- PHP, Laravel and Wordpress
- Ruby, Ruby on Rails, Python and Django
- MySQL, Postgres, Redis and MongoDB
- AWS, Google Cloud, Firebase, Heroku and Docker

Education **Bachelor's Degree in Computer Science**

Ateneo de Davao University
