

Non-Virtual Server Specifications

Minimum Requirements For Atrium and Booktracks:

Server OS: Ubuntu Server 24.04 LTS, Windows Server® 2016, 2019, and 2022 (Please contact Book Systems for more details.)

# of Locations Components	1-25 Locations**	25+ Locations**	
		Application Server	Database Server
CPUs	2 Dual-Core/1 Quad-Core @ 2.4 GHz	2 Dual-Core @ 3.0 GHz	2 Dual-Core @ 3.0 GHz
RAM	8GB	8GB	8GB
Number of Drives	1 Drive	1 Drive	2 Drives
Disk Space	100GB	100GB	1TB

Dedicated server required*

Workstation System Requirements For Atrium and Booktracks:

Monitor: 1024 x 768 resolution or higher

PDF Reader: Adobe Acrobat Reader or equivalent PDF reader

Supported Platforms: Windows and Macintosh OS (latest two releases)

Supported Browsers: Current versions of Microsoft Edge, Mozilla Firefox, Google Chrome, and Apple Safari*

*Apple Safari is the only browser we fully support for Mac OS.

*What's a **dedicated server**? Atrium requires a server that runs Book Systems software only. It cannot be used for another purpose such as email. You can purchase your own dedicated server; or we can host your data for you on our server (Atrium ASP).

**If you have a large amount of circulation (even with a relatively small number of locations), Book Systems would recommend that you switch to the 25+ Locations section, as higher circulation numbers do impact performance.
