

Integrated Library Solutions

Celebrating Over 30 Years

4901 University Square, Suite 3 | Huntsville, AL 35816
(800) 219-6571 | sales@booksys.com

**Affordable, feature-rich,
library automation solution!**

Atrium is a cloud-based, reliable, Integrated Library System (ILS) built on a foundation of over thirty years of experience in library technology.

Atrium's Core Product includes:

- Cataloging, circulation, inventory, patron management, custom reports, and web-accessible OPAC.
- Z39.50 Quick Cataloging for downloading free MARC records from LOC and other library resources.
- Self-service options with patron-managed renewals, reserves, watch lists, email/text notifications, self-check, and more.
- Captivating OPAC interfaces for all ages with customizable themes and designs using Canvas, Gallery, KidZviZ, and Quilt.
- Integrations with eBook and digital content providers.
- Free mobile apps for patrons and library staff use.
- SIP2, NCIP, Z39.50, and Single-Sign-On (SSO) support

Join the thousands of others that have switched to Atrium and discover a world of possibilities for your library.

Hosting Options

Atrium self-hosted is an on-premise solution designed for customers who prefer to have Atrium installed and running on their internal network and server. Book Systems, Inc. (BSI) technicians remotely perform scheduled software updates. However, remote access to Atrium, server updates, and backups are managed and maintained by your internal IT department.

We are an Application Service Provider (ASP) that offers technology solutions designed to deliver results. Our hosting options include maintenance, daily backups, and cost savings benefits compared to buying and maintaining a server in-house.

Backup Service
Security and Peace of Mind

Safeguard your library's database against natural disasters, ransomware attacks, and unexpected technical emergencies by subscribing to Remote Backup Service (RBS).

Your library's data will be automatically and securely archived off-site every day. Subscribe today and use RBS to restore your Self-Hosted Atrium or Booktracks database promptly during times of crisis.

Atrium sets the standard with core library functions and great features for managing your collection, as well as giving your patrons access to the resources they need. Below are just a few highlights that Atrium has to offer.

Digital Content

eBooks & Audiobooks

Integrated eBook and Audiobook search options for Overdrive®, Bibliotheca®, hoopla®, and many other digital content providers are included with Atrium at no additional cost.

Reporting Capability

Powerful & Customizable

Atrium enhances your reporting capabilities in as many ways as you can imagine:

- Easily generate out-of-the-box dynamic reports
- Customize reports by adding, removing, or rearranging columns and/or applying sorts
- Filter reports for specific data
- Create and save report templates for periodic or frequent use
- Schedule automated report generation and email or FTP delivery for any standard or saved report template
- Export report data for use in other programs

Quick Cataloging

Instantly Search & Retrieve USMARC Records

Catalog with speed and efficiency with Atrium's built-in Z39.50 client. Get instant access to over **20 million** free USMARC records from the Library of Congress and other Z39.50 server databases.

Seamless Integration

Supports SIP2, NCIP, and Z39.50 Protocols

Unlike other ILS vendors, Atrium includes and supports the industry standard SIP2, NCIP, and Z39.50 protocols at no additional cost. These provide the ability for Atrium to easily communicate with any RFID, Self-Check, Time/Print Management, or InterLibrary Loan (ILL) systems that require any of these standards.

OPAC

Customizable Interface

Captivate your patrons with our exciting OPAC interfaces! Choose from the clean modern look of Gallery or the customizable Canvas that has several layout options, numerous widgets, and over 100 OPAC pre-designed themes. Enable your patrons to log in to their account to set up bookbags, access watch lists, reserve items, renew items, check their account status(es), review/rate items, etc.

Community

Civic and Social Promotion

The Community feature in Atrium is designed to help you re-envision the library's role as a central public space; to bring patrons together to share knowledge and skills. Community posts can be used to promote/advertise groups, clubs, special events, workshops, and more.

Electronic Notifications

Keep Everyone Informed

Atrium gives you the tools to effectively communicate with your patrons. Easily announce recent library acquisitions, "What's Hot," or library events. Automatically send email or text notifications for items out/overdue, reserves "ready for pick up," personalized watch lists, and more. OPAC Widgets allow for promotion of events/activities, "What's Hot," "What's Coming," "What's New," etc.

Library Kiosks / Lockers Support

Patron Self-Service Holds Pickup

Atrium now supports the use of self-service kiosks or electronic lockers so patrons can pick up reserved items or holds at a remote or after hour pickup location. Kiosk/Locker locations can be assigned to manage reservations and notifications. Notification frequency can be set per Kiosk/Locker to allow additional lead time for areas where item delivery is less frequent.

Atrium Customer Review

Misty VonBehren | Deputy Library Director | Perry Public Library | Customer Since 2019

Sep 13, 2021

"Great product at an excellent value with professional & helpful staff."

Acquisitions

With today's limited library funding, it is important for libraries to maintain a detailed account of requests and expenditures. The Acquisitions Module for Atrium will provide the management options you need in a user-friendly, intuitive interface.

- Allocate funds, manage, and track library budgets
- Create, review, consider, and approve patron/staff initiated requests
- Manage, process, and track purchases

Authority Control

Improve your cataloging accuracy using the Authority Control Module for Atrium.

- Maintains and controls author/subject authority records
- Builds "See" and "See Also" cross-referencing
- Enables OPAC browse searching by author names and subjects

Serials

The Serials Module for Atrium has the flexibility to easily manage and catalog your magazines, periodicals, journals, and other subscriptions. Librarians can easily:

- Create and modify subscription information
- Track and mark items received upon arrival
- Process claims
- Produce a variety of pre-configured or customized reports

Express CheckIt (Self-Check)

Give your patrons what they expect while improving your staff's circulation workflows.

- Easy to implement
- Intuitive user interface
- Improves circulation
- Simple and secure

Debt Management

Atrium's Debt Management Module provides an automatic system for referring delinquent patrons to a collection agency (e.g. Unique Management) so your library can recoup fines for late, damaged, or lost items as well as outstanding fees.

Project Management

Going Beyond to Ensure Your Success

Our customers are assigned a Project Manager (PM) who will be dedicated to your implementation. Your PM will work closely with you and your staff, guiding you through our step-by-step deployment process.

Once the data has been converted, reviewed, necessary changes made, and then approved by you, our deployment team springs into action. A certified BSI technician remotely manages your installation, making your system “live” and preparing the way for your training session.

Rest assured that your PM and our friendly support team are always available to assist you during and after your system deployment.

Implementation

A Commitment to Your Success

At Book Systems, our dedication to customers goes well beyond the software. We’re committed to providing complete solutions and that starts with a successful implementation.

Implementation consists of a three-step approach:

1. Data Services
2. System Deployment
3. Training

Once the data is ready and your system is deployed, a certified BSI trainer will spend time with you and your staff, covering all the basic functions of the system and making sure you and your patrons are ready to hit the ground running. At Book Systems, we are committed to making your experience with our systems and people a positive one!

Data Services

You Can Trust Our Expertise

When it comes to your data, we understand the importance of maintaining its integrity. With over 30 years of experience, you can trust our expertise when handling the migration of your patron and library records to Atrium.

We offer a variety of data services including:

- Electronic transfers from an existing ILS
- Authority services
- Brief to Full MARC enhancement services
- Full retrospective conversions

“Amazing Customer Service”

Training

Our #1 Goal is Ensuring Your Success

We offer a variety of training options to meet your needs. Our trainers are degreed librarians who are former customers that used Atrium to manage their libraries. They provide innovative learning content that helps you work effectively and teaches you how to take advantage of Atrium's functionality for the most efficient results.

Online Training

Our online sessions are designed to deliver real-time, affordable training that can be focused on specific tasks such as inventory, custom reports, etc. Set up multiple training sessions at your convenience.

On-Site Training

A BSI certified trainer will visit your library so you and your staff can learn to use our products within a familiar environment.

Refresher Training

Our focused follow-up training provides uniquely designed sessions to boost your staff's knowledge. Participants can acquire detailed information about product features or learn about the latest updates.

Customer Support Beyond Compare

Unparalleled Customer Support

We take great pride in our commitment to provide exemplary customer support. Our knowledgeable technicians are well trained to answer your questions and provide comprehensive solutions in a friendly and courteous manner, with southern hospitality, all from Huntsville, AL. When you call, you'll always be greeted by a live person from our customer support team that are there to assist so that you have a satisfactory response every single time.

Our goal is to serve our customers and maintain our reputation for an unparalleled customer support experience.

Phone Support

Available Monday through Friday
7 AM – 7 PM Central Time
(888) 289-1216 (Toll Free)
(256) 533-9746

Remote Support

With your permission, our technician securely accesses your system to assist with resolving issues. Service available Monday-Friday, 7 AM – 5 PM Central Time.

Call Queue

Customers can opt to have a case created and be placed into a call queue until a technician becomes available. Our typical hold time is less than 5 minutes.

Live Chat

Maximize your time by multi-tasking while chatting online with our team. Service available Monday-Friday, 7 AM – 5 PM Central Time.

2-Hour Call Back

If all technicians are busy assisting others, a case will be created and a technician will contact you within 2 hours.

Free Updates / Enhancements

Customers with an active support contract receive free product updates and enhancements as they become available.

Email Support

Email your questions or issues to support@booksys.com and a technician will respond within 24 hours.
