

Integrated Library and Asset Management Solutions

Celebrating Over 30 Years

4901 University Square, Suite 3 | Huntsville, AL 35816
(800) 219-6571 | sales@booksys.com

**Affordable, feature-rich,
library automation solution!**

Atrium is a cloud-based, reliable, Integrated Library System (ILS) built on a foundation of over thirty years of experience in library technology.

Atrium's Core Product includes:

- Cataloging, circulation, inventory, patron management, custom reports, and web-accessible OPAC.
- Z39.50 Quick Cataloging for downloading free MARC records from LOC and other library resources.
- Automated patron features for importing student/teacher data from Student Information Systems.
- Self-service options with patron-managed renewals, reserves, watch lists, email/text notifications, self-check, and more.
- Captivating OPAC interfaces for all grade levels with customizable themes and designs using Canvas, Gallery, KidZviZ, and Quilt.
- Integrations with eBook and digital content providers.
- Free mobile apps for patrons and library staff use.
- SIP2, NCIP, Z39.50, and Single-Sign-On (SSO) support

Join the thousands of schools that have switched to Atrium and discover a world of possibilities for your school's library.

Hosting Options

Atrium self-hosted is an on-premise solution designed for customers who prefer to have Atrium installed and running on their internal network and server. Book Systems, Inc. (BSI) technicians remotely perform scheduled software updates. However, remote access to Atrium, server updates, and backups are managed and maintained by your internal IT department.

Our Express Software-as-a-Service (SaaS) is a subscription-based hosting service that provides an affordable hosting option. Make your library's technology work effortlessly at a competitive price.

Backup Service
Security and Peace of Mind

Safeguard your library's database against natural disasters, ransomware attacks, and unexpected technical emergencies by enrolling in our Remote Backup Service (RBS).

Your library's data will be automatically and securely archived off-site every day. Subscribe today and use RBS to restore your Self-Hosted Atrium or Booktracks database promptly during times of crisis.

Atrium sets the standard with core library functions and great features for managing your collection, as well as giving your patrons access to the resources they need. Below are just a few highlights that Atrium has to offer.

Digital Content

eBooks & Audiobooks

Integrated eBook and Audiobook search options for Overdrive®, Axis 360™, Bibliotheca®, hoopla®, and many other digital content providers are included with Atrium at no additional cost.

Reporting Capability

Powerful & Customizable

Atrium enhances your reporting capabilities in as many ways as you can imagine:

- Easily generate out-of-the-box dynamic reports
- Customize reports by adding, removing, or rearranging columns and/or applying sorts
- Filter reports for specific data
- Create and save report templates for periodic or frequent use
- Schedule automated report generation and email or FTP delivery for any standard or saved report template
- Export report data for use in other programs

Quick Cataloging

Instantly Search & Retrieve USMARC Records

Catalog with speed and efficiency with Atrium's built-in Z39.50 client. Get instant access to over **20 million** free USMARC records from the Library of Congress and other Z39.50 server databases.

Seamless Integration

Supports SIP2, NCIP, and Z39.50 Protocols

Unlike other ILS vendors, Atrium includes and supports the industry standard SIP2, NCIP, and Z39.50 protocols at no additional cost. These provide the ability for Atrium to easily communicate with any RFID, Self-Check, Time/Print Management, or InterLibrary Loan (ILL) systems that require any of these standards.

OPAC

Customizable Interface

Captivate your audience with our customizable OPAC interfaces. Choose from over 100 pre-designed themes, with numerous layouts and widgets, for your OPAC home page. Enable your patrons to log in to their account to create and access bookbags, watchlists, place reserves, renew items, rate/review items, and check their account status.

KidZviZ™

KidZviZ is the ideal Pre-K through 3rd grade library explorer's toolbox. We consulted with teachers, librarians, curriculum coordinators, and kids to provide all young readers with an attention-grabbing, age-appropriate searching mechanism that is like none you've ever seen!

Promoting the People, Places, and Things visual search index, our cartoon character (named Vizzie) takes kids on an adventure, exploring your library catalog.

Electronic Notifications

Keep Everyone Informed

Atrium gives you the tools to effectively communicate with your patrons. Easily announce recent library acquisitions, "What's Hot," or library events. Automatically send email or text notifications for items out/overdue items, reserves "ready for pick up," personalized watch lists, and more. OPAC Widgets allow for promotion of events/activities, "What's Hot," "What's Coming," "What's New," etc.

Library Kiosks / Lockers Support

Patron Self-Service Holds Pickup

Atrium now supports self-service kiosk/locker systems, classroom, curbside, and custom pickup locations. Patrons can put items on hold or reserve and designate a pickup location defined by the library. The notification "available for pick up" frequency can be set per location to allow additional lead time where item delivery is less frequent.

Atrium Customer Review

Kelley Peoples | Principal | St. Clair County School District | Customer Since 2009

"The Atrium ILS is a wonderful tool for libraries!"

Explore Gallery

A Modern, Mobile-Responsive Online Public Access Catalog

Introducing Gallery, our modern, attractive, and mobile responsive OPAC interface for Atrium. Gallery makes searching easier for your patrons to find print, electronic, and digital resources offered by your library. Your patrons will immediately notice the “eye-catching” enriched content and appreciate the sleek, modern look and feel.

Quilt Interactive Kids Catalog

Immerse, Educate, and Entertain

Experience the next generation in an interactive and highly engaging kids catalog for your library. Quilt creates a “gamification” visual interface that displays dust jackets and search categories in a patchwork quilt design that engages young readers. The visual impact encourages them to explore and discover more and increases the circulation of your children’s materials.

Customizable OPAC Themes

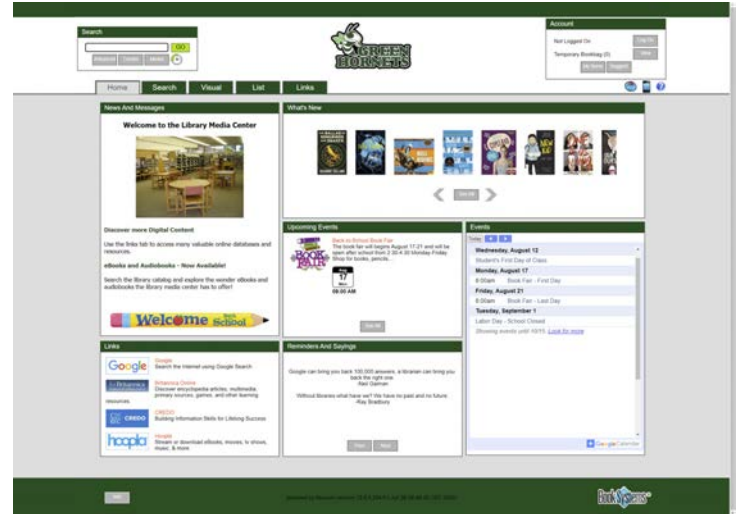

Artistic Themes Allow You to Cater to Varied Audiences

Innovative options allow you to create a unique search interface and messaging platform for your library patrons. Choose from over 100 different themes plus nine delivered layouts, or create a custom layout with as many interactive widgets as you need for your OPAC home page.

Spirit Week Theme

Inspirational type theme showcasing a 5 widget layout.

Forest Theme

Modern type theme showcasing a 6 widget layout.

KidZviZ Search Navigation

Kids' OPAC Interface for Your Library

The KidZviZ OPAC interface for Atrium creates a world that kids can explore, navigate, and search using reading skills over a wide range. KidZviZ is the ideal Pre-K through 3rd grade library explorer's toolbox that now supports a Common Sense Categories (CSC) system designed for young students to search and quickly locate items in the library.

Atrium® + PowerSchool

An Essential Combination for Your District

Atrium and PowerSchool SIS API Integrations

Atrium and PowerSchool's SIS provide your district with the most powerful, comprehensive solutions for managing your library and student information.

Atrium now supports secure student data integration with your PowerSchool SIS using the PowerSchool API*.

* Also available for Booktracks (sold separately).

Discover how to automate and simplify importing student data into Atrium

How does it work?

Easily maps and securely sends student data from PowerSchool to Atrium's Patron Report Classes and other patron fields, which ensure accuracy and proper reporting.

is saying about **Atrium**
on www.g2.com

Single Sign-On (SSO) Options

Using ClassLink's Launch Pad, one password gives students and teachers access to everything they need on any device. Quickly launch and easily access the library's Atrium OPAC and their online account without requiring additional credentials or authentication.

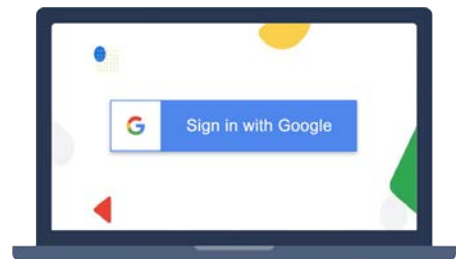

With Clever SSO, access to your online account through Atrium's OPAC is secure, easy to access, and reliable for every student and teacher every time. The result? Higher usage and better engagement with your Atrium OPAC.

Google SSO is a secure authentication system that reduces the burden of login for your patrons by enabling them to sign in with their Google account.

Does your school support Google SSO? If not, no worries! Your students and teachers can log in to their accounts using traditional methods using their barcode/username and PIN. We also support LDAP authentication.

Atrium Mobile App

Librista

Designed for Today's Library User

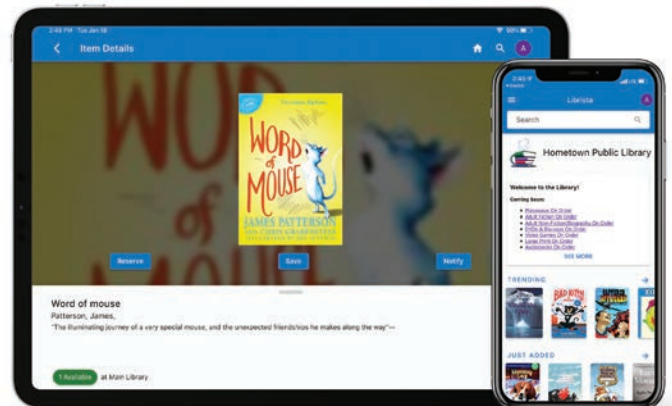

Librista provides your patrons with a convenient app that delivers a blend of advanced searching power, personal account management, and connectivity to your library's catalog. Using geolocation features, patrons can quickly find your library or any other libraries that use Atrium for the Integrated Library System.

Accountability for Your Most Valuable Assets

In today's world, keeping track of mobile devices, eReaders, tablets, laptops, textbooks, and other costly assets is critical to controlling your budget. With Booktracks, you get an easy-to-use yet powerful 100% web-based program with asset AND textbook tracking capabilities that will save you time and a significant amount of dollars.

Booktracks meets the challenge of overseeing all of your assets by readily providing you the tools and necessary information, so you'll know exactly what you have, where it is located, and who's responsible for it.

Booktracks is a highly configurable asset management system that can be adapted to meet the needs of any size district or institution.

Use Booktracks to easily track: 1:1 Devices, Fixed Assets, Hardware, Consumables, and Textbooks.

Hosting Option

Our Booktracks ASP hosted service delivers stress-free, cloud computing technology, reduces IT costs, and provides worry-free maintenance.

Booktracks ASP also:

- Eliminates the need for a dedicated server.
- Includes unlimited storage/user access.
- Provides secure 24/7 access to your Booktracks system.
- Includes automated backup services.
- Allows access from any supported browser or mobile device.

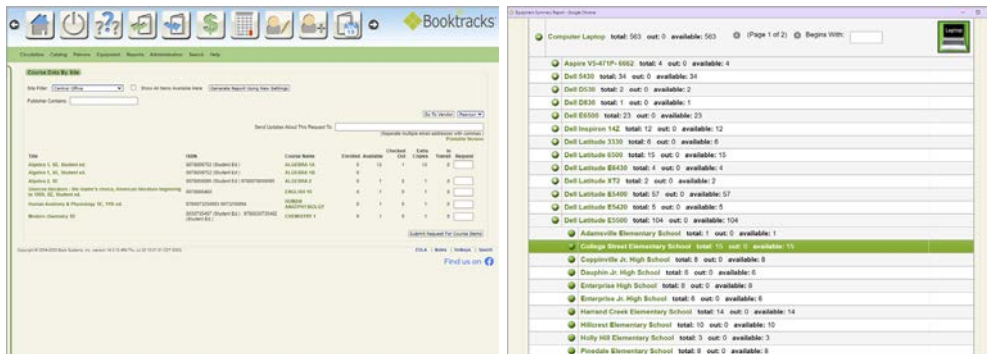

Distribution and Collection

Booktracks is designed to be accessible from computers or mobile devices and offers various features that simplify the distribution and collection process of 1:1 devices, fixed assets, hardware, consumables, and textbooks.

Effortless Tracking and Managing

Robust reporting and tracking allow administrators to easily monitor equipment and textbook conditions, warranties, and repair needs at the district and building levels.

Integrations with Your Atrium ILS

School districts can benefit by using Atrium and Booktracks since they offer similar interfaces and integrated features. Users can easily work with and cross-reference important data.

Integration with Atrium gives the ability to:

- Switch between Atrium and Booktracks using a single log-in.
- Provide a single file with student data to populate both databases.
- View students' circulation information from either product.
- Allow students to see library items, assets, equipment, and textbooks they have checked out when logged in Atrium's OPAC.

Booktracks and PowerSchool API Integrations

Booktracks now supports integrating with your PowerSchool SIS using the PowerSchool API*. Contact us to request pricing and more details.

* Also available for Atrium (sold separately).

SURFit

Dynamic Federated Searching Tool

A powerful Federated Search option for Atrium that allows patrons to simultaneously search the library collection in addition to content from free and paid online databases such as Britannica®, EBSCOhost®, Google Books, Gale, ProQuest®, World Book, and more.

Benefits include:

- Providing patrons the confidence to conduct self-directed searches.
- Increasing usage of your OPAC and subscription databases.
- Organizing searched results quickly and easily.
- Eliminating the need for different usernames and passwords.

Project Management

Going Beyond to Ensure Your Success

Our customers are assigned a Project Manager (PM) who will be dedicated to your implementation. Your PM will work closely with you and your staff, guiding you through our step-by-step deployment process.

Once the data has been converted, reviewed, necessary changes made, and then approved by you, our deployment team springs into action. A certified BSI technician remotely manages your installation, making your system "live" and preparing the way for your training session.

Rest assured that your PM and our friendly support team are always available to assist you during and after your system deployment.

Implementation

A Commitment to Your Success

At Book Systems, our dedication to customers goes well beyond the software. We're committed to providing complete solutions and that starts with a successful implementation.

implementation consists of a three-step approach:

1. Data Services
2. System Deployment
3. Training

Once the data is ready and your system is deployed, a certified BSI trainer will spend time with you and your staff, covering all the basic functions of the system and making sure you and your patrons are ready to hit the ground running. At Book Systems, we are committed to making your experience with our systems and people a positive one!

Data Services

You Can Trust Our Expertise

When it comes to your data, we understand the importance of maintaining its integrity. With over 30 years of experience, you can trust our expertise when handling the migration of your patron and library records to Atrium.

We offer a variety of data services including:

- Electronic transfers from an existing ILS
- Authority services
- Brief to Full MARC enhancement services
- Full retrospective conversions

"Top Rate Customer Service"

Training

Our #1 Goal is Ensuring Your Success

We offer a variety of training options to meet your needs. Our trainers are degreed librarians who are former customers that used Atrium to manage their libraries. They provide innovative learning content that helps you work effectively and teaches you how to take advantage of Atrium's functionality for the most efficient results.

Online Training

Our online sessions are designed to deliver real-time, affordable training that can be focused on specific tasks such as inventory, custom reports, etc. Set up multiple training sessions at your convenience.

On-Site Training

A BSI certified trainer will visit your library so you and your staff can learn to use our products within a familiar environment.

Refresher Training

Our focused follow-up training provides uniquely designed sessions to boost your staff's knowledge. Participants can acquire detailed information about product features or learn about the latest updates.

Customer Support Beyond Compare

Unparalleled Customer Support

We take great pride in our commitment to provide exemplary customer support. Our knowledgeable technicians are well trained to answer your questions and provide comprehensive solutions in a friendly and courteous manner, with southern hospitality, all from Huntsville, AL. When you call, you'll always be greeted by a live person -- real people on our customer support help desk are there to assist so that you have a satisfactory response every single time.

Our goal is to serve our customers and maintain our reputation for an unparalleled customer support experience.

Phone Support

Available Monday through Friday
7 AM – 7 PM Central Time
(888) 289-1216 (Toll Free)
(256) 533-9746

Remote Support

With your permission, our technician securely accesses your system to assist with resolving issues. Service available Monday-Friday, 7 AM – 5 PM Central Time.

Call Queue

Customers can opt to have a case created and be placed into a call queue until a technician becomes available. Our typical hold time is less than 5 minutes.

Live Chat

Maximize your time by multi-tasking while chatting online with our team. Service available Monday-Friday, 7 AM – 5 PM Central Time.

2-Hour Call Back

If all technicians are busy assisting others, a case will be created and a technician will contact you within 2 hours.

Free Updates / Enhancements

Customers with an active support contract receive free product updates and enhancements as they become available.

Email Support

Email your questions or issues to support@booksys.com and a technician will respond within 24 hours.
