The installation sequence consists of eight steps:

- 1**: Dimensions of the sink and the drilling guide. The sink has a width of 87 cm and a depth of 16 cm. The drilling guide has an outer diameter of 440 mm and an inner diameter of 420 mm. The distance from the center of the sink to the center of the drilling guide is 51 cm. The distance from the center of the sink to the edge of the drilling guide is 20 cm. The distance from the center of the sink to the top edge of the drilling guide is 13 cm.
- 2**: Components of the installation kit: A (sink), B(1) (bondes / plughole), C(1) (siphon / u-bend), D (tubulure / pipework), E (gabarit / drilling guide), F, G, H, I(1)(2) (fixation / fastening). Legend: (1) : non fourni / not supplied, (2) : à adapter selon le type de sol / depending on the floor type.
- 3**: Assembly of the sink and siphon components.
- 4**: Marking the floor with a pencil and marking the drilling guide.
- 5**: Drilling the floor holes with a power drill.
- 6**: Inserting the bonding and siphon components into the floor holes.
- 7**: Mounting the sink onto the bonding and siphon components.
- 8**: Final assembly showing the sink mounted on the floor.
