The item should not be disposed of with household waste. Please take it to a collection point or an approved centre to ensure that it is recycled.

i Prérequis / Prerequisite

Vous pouvez installer ce produit dans le **Volume 2 ou Hors Volume**. Interdit dans le Volume 0, le Volume 1 et le Volume caché / You can install this product in the **Volume 2 or outside**. Forbidden in the Volume 0, the Volume 1 and the Hidden Volume

Extrait de la norme électrique **NF C15-100** / Extract from the **NF C15-100** electrical standard

i Données techniques / Technical data

Ce luminaire intègre une source lumineuse de classe F. / This light integrates a class F light source.

Références miroir / Mirror references	MICL
Alimentation luminaire / Light power supply	230 V ~ 50 Hz
Référence ruban LED / LED strip reference	29409085
Flux lumineux de la source / Light source luminous flux	800 Lm
Puissance source lumineuse / Light source power	8 W par mètre / 8 W per meter
Température de couleur de la source / Light source colour temperature	4000 °K
Indice de protection / Index protection rating	IP 44
Isolation électrique / Electrical insulation	Classe II / Class II

La source lumineuse de ce luminaire est remplaçable par un professionnel. / The light source of this light is replaceable by a professional.

L'alimentateur de ce luminaire n'est pas remplaçable. Lorsque l'alimentateur atteint sa fin de vie, le luminaire entier doit être remplacé. / The driver of this light is not replaceable. When the driver reaches the end of its life, the entire light must be replaced.

1

Mesurez la dimension **X** et **Y** pour positionner le miroir à la bonne distance. / Measure the **X** and **Y** dimension to position the mirror at the right distance.

2

Vis et chevilles non fournies, à adapter selon le support / Screws and dowels not supplied, depending on the support

2 Branchement électrique / Electrical connection

1 Coupez l'alimentation générale. / Cut off the general power supply.

Conformément à la norme NF C 15-100, raccordez le luminaire à l'alimentation électrique par l'intermédiaire d'un boîtier de raccordement non fourni (IP44). / According to standard NF C 15-100, connect the light to the power supply through a connection box not supplied (IP44).

2

AC 230 V ~ 50 Hz

3

Utilisez du silicone neutre. / Use neutral silicone.

4

5 Utilisation / Use

Variation d'intensité lumineuse / Variable light intensity (25-50-75-100%)

Coupe de l'alimentation du miroir au bout de 2h / Mirror power cut-off after 2h

ON-OFF

Anti-buée / Anti-mist

Anti-buée / Anti-mist

Devient orange lors du fonctionnement. / Turns orange during operation.

6 Si besoin : Remplacement du ruban LED / If necessary : Replacement of the LED strip

- 1 Coupez l'alimentation générale / Cut off the general power supply

2

3

- 4 Décollez le ruban LED du cadre et mesurez sa longueur **Z**. / Unglue the LED strip from the frame and measure its length **Z**.

5

Mesurez la dimension **Z** pour couper la nouvelle LED à la bonne mesure. / Measure dimension **Z** to cut the new LED to the right size.

6

Ruban LED 29409085 - La barre led de remplacement est à se procurer dans le magasin d'achat du miroir lumineux - se référer au tableau des données techniques / LED strip 29409085 - The replacement LED strip can be obtained from the shop where you purchased the lighted mirror - refer to the technical data table.
