

Company Overview

created by Aldenaire & Partners

Warehousing

We operate several commercial warehouses and distribution facilities in the greater Twin Cities area. Our facilities offer secure, temperature-controlled environments to ensure efficient inventory management and handling. Whether you need storage or cross-docking, we are fully equipped and have sufficient space to cater to your requirements.

In addition, we have an extensive fleet of over 900 storage trailers in our inventory to support additional storage demands. Our 53' trailers are ideal for on-site and off-site storage, and we offer custom pricing for long- and short-term rentals. We'll manage all your warehousing and 3PL fulfillment processes, from inbound and outbound transportation to palletizing and everything else in between.

LOGISTICS

Finding the right Minneapolis logistics partner in today's competitive market, matters. Whether your needs are simple, diverse or complex, you need a partner who can manage your shipping needs from cradle to grave. As an asset based 3PL located in the greater Minneapolis area, MTL delivers cost-effective freight service solutions by combining advanced Transportation Management System (TMS) technology, a full suite of managed services and personalized consulting. We tailor our services for your success.

Minnesota Trucking Company

MTL provides a full range of equipment options and is a leader in the professional same day local & regional transportation services, for the greater Twin Cities area of Minnesota.

- Tractor Trailer and Dock Truck Services: MTL offers fast, convenient delivery solutions with our same day on-demand dock trucks. Plus, you can take advantage of our zip-to-zip rates for deliveries within our eight-county Twin Cities Region.

Industries

Third-party logistics (3PL) providers partner with businesses from nearly every industry to optimize supply chains and logistics operations. When you outsource your order management and logistics processes to MTL Companies, we offer the scalability and cost savings your business needs to thrive and grow in this ever-changing economy. From transportation to warehousing to pick and pack fulfillment, let's explore the many industries that could benefit from MTL's third-party logistics solutions.

Pick and Pack Services

When you use our pick and pack warehouse, we ensure you receive quality services to make your e-commerce operations and business run smoothly. Our fulfillment services include:

- **Picking:** The picking stage of fulfillment involves having a list of items to retrieve from inventory. Picking is crucial to order fulfillment, allowing customers to obtain the items they bought.
- **Packing:** Once the correct quantity and product type are picked, the next stage of fulfillment is packing. It involves putting the items in a shipping box and properly packaging them to reduce product damage once the box ships.

Corrugated Products

Corrugated board plays a significant role in the packaging and shipping industries. When you have excess products that don't fit in your business's on-site storage, getting off-site storage can help. MTL Companies has the solution when you need somewhere to store your corrugated board products. Our warehouses can safely store your corrugated storage boxes and other products when you aren't using them.

Food Grade Warehouses

We value providing warehousing solutions for all business types. That's why we ensure we have facilities that are food-grade safe. Food grade warehouses are properly stocked with supplies, equipment and materials that are safe to use around and in contact with food. They also follow strict guidelines to maintain their food-grade condition. For a warehouse to be considered food-grade safe, it must:
