How to sync With Amazon Echo

1. Link Smart life account to Echo

>>Go to Home menu on Alexa App.

>>Select "Skills" in Home menu, search.

"Smart Life" on search window.select "Smart Life and tap

"Enable" to enable the Smart Life skill.

>>In link page, type in your Smart Life account & assword and tap "link now" to link your Smart life account. Wait until "Alexa has been successfully inked with Smart Life" shows up.

2. Control smart devices through Echo

>>Echo needs to discover your smart devices before it controls them. You can say "Alexa, discover devices" to Echo. Echo will discover devices in about 20 seconds.

Now, you can control your smart devices through Echo: "Alexa, turn on/off bedroom light"

>>If you changed the device's name on Smart Life APP, Echo must re-discover it before you control them.

>>You can set up groups on Alexa App to control.
