windows Driver Installation

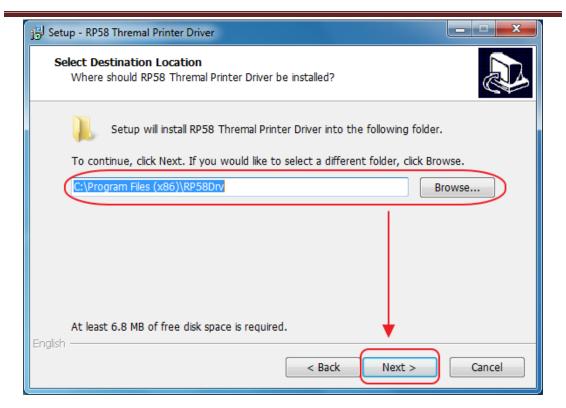

Double click the icon as above.

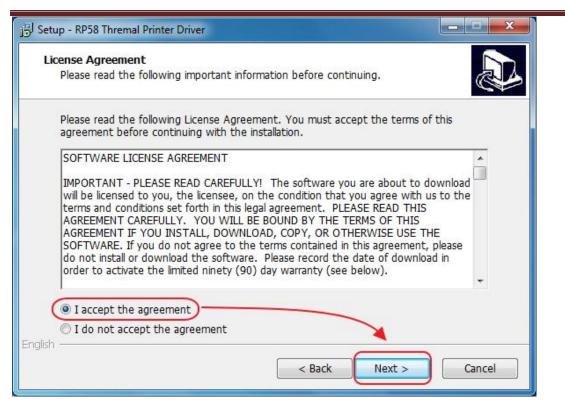

Following is the welcome screen:

Click "next" (see the following picture)

The driver default(recommended) installed in C specific foler, if the user hope to change the installanation path, please click "Browse…" and choose the destination folder, then click "Next". (see the following picture)

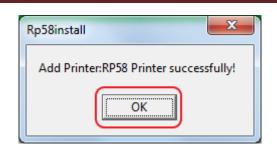

Please read the license agreement carefully and then choose "I accept

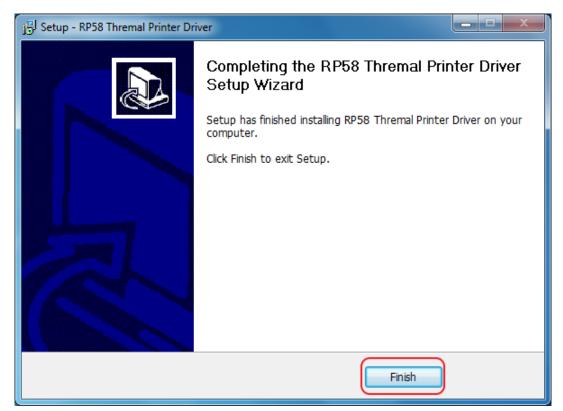

the agreement". (see the following picture)

🔂 Setu	p - RP58 Thremal Printer Driver	_ _ ×
Re	ady to Install Setup is now ready to begin installing RP58 Thremal Printer Driver on your computer.	
	Click Install to continue with the installation, or click Back if you want to revie change any settings.	w or
	Destination location: C:\Program Files (x86)\RP58Drv	*
English	•	* F
	< Back Install	Cancel

Click "Install." (See the following picture).

After it, please wait for minutes, when the pending installnation is conpeleted that would appears the above information, which means the setting is successful, then click "ok". (see the following picture)

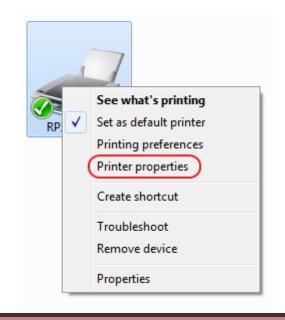

Click "Finish" to exist the setup.

Setup and test the printer

1、 Setting printer property

Click"Start" menu, then find and click " Devices and Printers" as above. (see the following picture)

Right click "RP58 Printer" and choose "Printer Properties" that would appear following picture:

Security		Device	Settings	About
General	Sharing	Ports	Advanced	Color Management
	RP58 Printer			
Location:				
Comment:				
Model: Features Color: No	RP58EN	D	n en en site blev	
			per available:	
Double-side Staple: No		P	rinter 58(48) x 3276	mm 🔺
Speed: Unknown Maximum resolution: 203 dpi				-
		Preference	es Pri	nt Test Page

In RP58 Printer Properties, please find "General" option, the user could configure the communication interface of printer, such as serial, parallel, USB, and also could set the paper size etc. When the setting is finished, the user could print the test page.

2, Serial Port Configuration

In "RP58 Printer Properties", please switch to "Ports" option to set up the serial communication interface between printer and computer, such as following picture:

RP58 Printer	Properties			x
Securi	ty	Device Settings		About
General	Sharing	Ports	Advanced	Color Management
		ocuments w	ill print to the first	free
Port	Description	Pri	nter	•
COM4:	Serial Port			
COM1:	Serial Port	>		
FILE:	Print to File			
USB002	Virtual printer po	ort for		
USB001	Virtual printer po			E
192.16			80 Printer	
XPSPort:	Local Port	Mi	crosoft XPS Docun	net Writer 👻
Add P	ort	Delete Por	t Con	figure Port
Enable bid	irectional support			
	nter pooling			
			ОК	Cancel Apply

Choose available COM interface, such as the one shown in above and then click "Configure Port" for parameter setting. (see the following picture)

COM1 Properties	8 ×
Port Settings	
Bits per second: 9600	
Data bits: 8	•
Parity: None	-
Stop bits: 1	-
Flow control: Hardware	-
Restore	e Defaults
	Apply

"Bits per second" is the baud rate of serial port, the option should be same as printer setting, such as the baud rate of printer is "9600bsp", the user should choose "9600" at here. (Factory default baud rate is 9600bps.)

After setting, click "Apply" first, then click "OK".

Before returning the following picture, please click " Apply " to complete the configuration of serial port.

Securit	y Devi	ice Settings	About

COM4:	Serial Port			
COM1:	Serial Port	RP	58 Printer	-
Add P	ort	Delete Po	rt Co	nfigure Port
Enable bid	lirectional suppo	rt		
	nter pooling			\
_ chable pri	nter pooling			¥

Choose available LTP port, like the one shown in above and then click

"Apply" to finish the configuration of parallel port.

4、 USB Port Configuration

In "RP58 Printer Properties", please switch to "Ports" option to set up the USB communication interface between printer and computer. Such as the following picture:

Securit	y	Device S	Settings	Abou	.rt
General	Sharing	Ports	Advanced	Color Ma	nagement
rint to the fo	58 Printer llowing port(s). D	ocuments w	ill print to the f	irst free	
hecked port. Port	Description	Pri	inter		*
COM4:	Serial Port				-
COM1:	Serial Port	1			
FILE:	Print to File	•			
USB002	Virtual printer po	ort for	`		
🗸 USB001	Virtual printer po	ort for			=
192.16	Standard TCP/IP	Port ZT	80 Printer		
XPSPort:	Local Port	Mi	icrosoft XPS Do	cument Writer	*
Add Po	ort	Delete Po	rt	Configure Port	
	irectional support iter pooling				

Choose the available USB port, such as the one shown in above and then click "Apply" to complete the configuration of USB port.

5 Print test page

When the configuration of communication port is finished, the user could print the test page.

Return to the "General" option in "RP58 Printer Prosperities", such as the following picture:

	y	Device Se	ettings	About
General	Sharing	Ports	Advanced	Color Management
	RP58 Printer			
ocation:				
Comment:				
/lodel:	RP58EN			
Features Color: No		Pape	er available:	
COIOI: NO	ed: No	Pri	nter 58(48) x 3276 ı	mm 🔺
Double-side				
Double-side Staple: No				
Double-side Staple: No Speed: Unk				
Double-side Staple: No Speed: Unk	nown esolution: 203 d	pi		*

Click "Print Test Page", if the printer has connected to the computer and the configuration of communication port is correct, the printer would execute the print command, then print the test page.

6 • Other properties and functions setting

The user also could set up the cash drawer operation, please find following instructions:
