## Flash Drive Duplicator Series

\*Make multiple copies of your USB cards in minutes!

The USB duplicators easily and reliably create multiple copies of your USB cards without a computer or cumbersome software. Each USB channel has dedicated copy throughput of 33MB per second. Asynchronous copy allows each channel to function independently and copies directly from 128MB of built-in memory so there is no need to start and end a copy cycle at the same time. Source Analysis feature identifies the content on the master and intelligently copies only the data to speed up copy cycle. Fast, reliable, convenient and cost-effective to operate, Spartan Super USB duplicators help you to get more done in less time!

- Standalone solution; no PC or software is needed
- Support Asynchronous copy mode
- Unique Source Analysis feature
- Up to 1980MB/min copy speed per channel
- Easy to use, cost-effective to operate
- Real-time display of detailed information
- No warm-up or cool-down required
- Heavy-duty construction, built for daily operation
