

## ◆ Extra Parameters:

LED Bulbs Amount:	102 PCS	Total Power:	6.2W
Power Source:	AA Battery 5PCS	DC Power:	6V-7.5V
Color Temperature:	5400K/3200K		

## ◆ Components:

- Power Switch: To switch on or off.
- Dimmer Knob: For dimming, light can be dimmed to suit with different shooting conditions.
- Gels Holder: For packing the filters
- Filters: Without filters, light is of spotlight effect and suitable for shooting at a relatively long distance; with diffusing filter, light is of soft light effect; and with yellow filter, the color temperature of light changes from 5400K to 3200K. With ExtraDiffusing filter, the light becomes much softer and eliminate shadow effect. The installation method of filter is press and catch type.

Filter has two different sides, one side has recess at its short edges, and the other side does not. Put the side with recess towards the LED panel, press the filter to be caught by the filter catcher. Then the filter is fixed.

## ! Instructions:

1. Install Battery: When installing AA battery, please make sure the positive and negative poles are correct positioned according to the "+" and "-" marks. Fix the battery holder cover after the batteries are installed.
2. Mount the LED Video Lighting on a camcorder. Insert the hot shoe adapter into the hot shoe of the camcorder; screw the hot shoe knob to fix the LED Video Lighting on camcorder.
3. Switch on and you can use it.
4. Turn off the power after use.

## ? Notice:

1. Please turn off the power after use, in order to avoid waste of battery and longtime heat generation and further affect the service life of LED bulbs.
2. If power is supplied by AA battery, please remove the battery when the LED Lighting is out of use, otherwise, the battery unused longtime will go moldy and rot the circuit inside the LED Lighting
3. When the light is on, please do not look at the LEDs bulb straight ahead
4. Do not catch the head of the light to hold the total camera
5. Please install battery as gently as you can to avoid damage and distortion of the battery holder.
6. Keep away from dampness, and avoid to expose in the sunshine for long, it can help to longer the light life.
