Instructions:

1. Mount the lighting on a light stand with a suitable direction, unfold the barn doors and then connect with power. If power is standalone Li-ion battery, please check if the standalone Li-ion battery is securely installed onto the battery plate and in normal condition before use.
2. Please insert diffuser or filter from upside (As below pictures).

3. Switch on and dim according to different shooting conditions. Light direction can be adjusted through the two clamping screws that fix the panel with the U-bracket.
4. Switch off after use.

Notice:

1. Dampness causes a short circuit. Please place the product where it is dry and ventilated.
2. Please turn off after use, so as to avoid waste of battery power and longtime heat generation, and further shorten the service life of the LED lamps.
3. Li-ion battery should be recharged in time.
4. Please install Li-ion battery as gently as possible to avoid damage and distortion of the battery plate.
