

Features:

- Broadcast-Quality Condenser Mic with extended length
- Higher directivity, and narrows the pick up area
- Two step High Pass Filter (Flat/80Hz)
- Low noise circuitry
- Rugged, durable ,lightweight and all aluminum alloy construction.
- · 48V Phantom Power or 1.5 AA battery

Specifications:

Acoustic Principle: Line plus gradient

Directional Pattern:Super-Cardioid
Frequency Range:
30Hz ~ 20,000Hz

Sensitivity: $-33 dB \pm 2 dB \text{ re } 1\text{V/Pa} @ 1\text{kHz}$

Output impedance: 280 Ohm or more----phantom

380 Ohm or more ----battery

Signal to noise ratio: 80dB or more

Power: 1.5v battery or 48v phantom

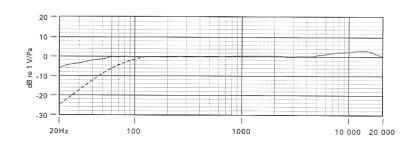

Filter: Controlled by low-cut filter switch

Length: 38cm

Output Connection: 3-Pin XLR

Net Weight: 146g

Frequency Response

Polar Pattern
