

INSTALLATION INSTRUCTIONS FOR Shower Seat Models C&D

Before installing, please read the instructions carefully in order to install and use this product safely.

Note:

The structure and installation method for Model C is the same as for Model D.

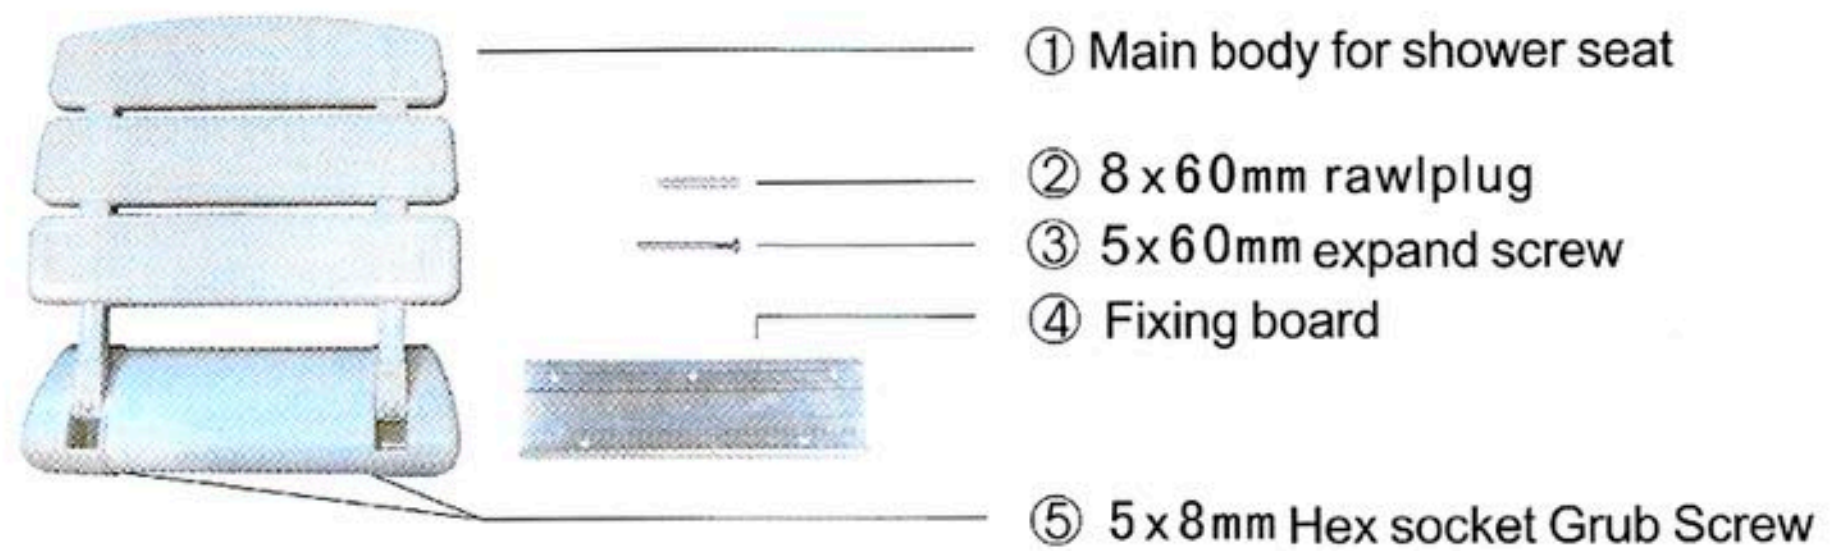

MODEL C

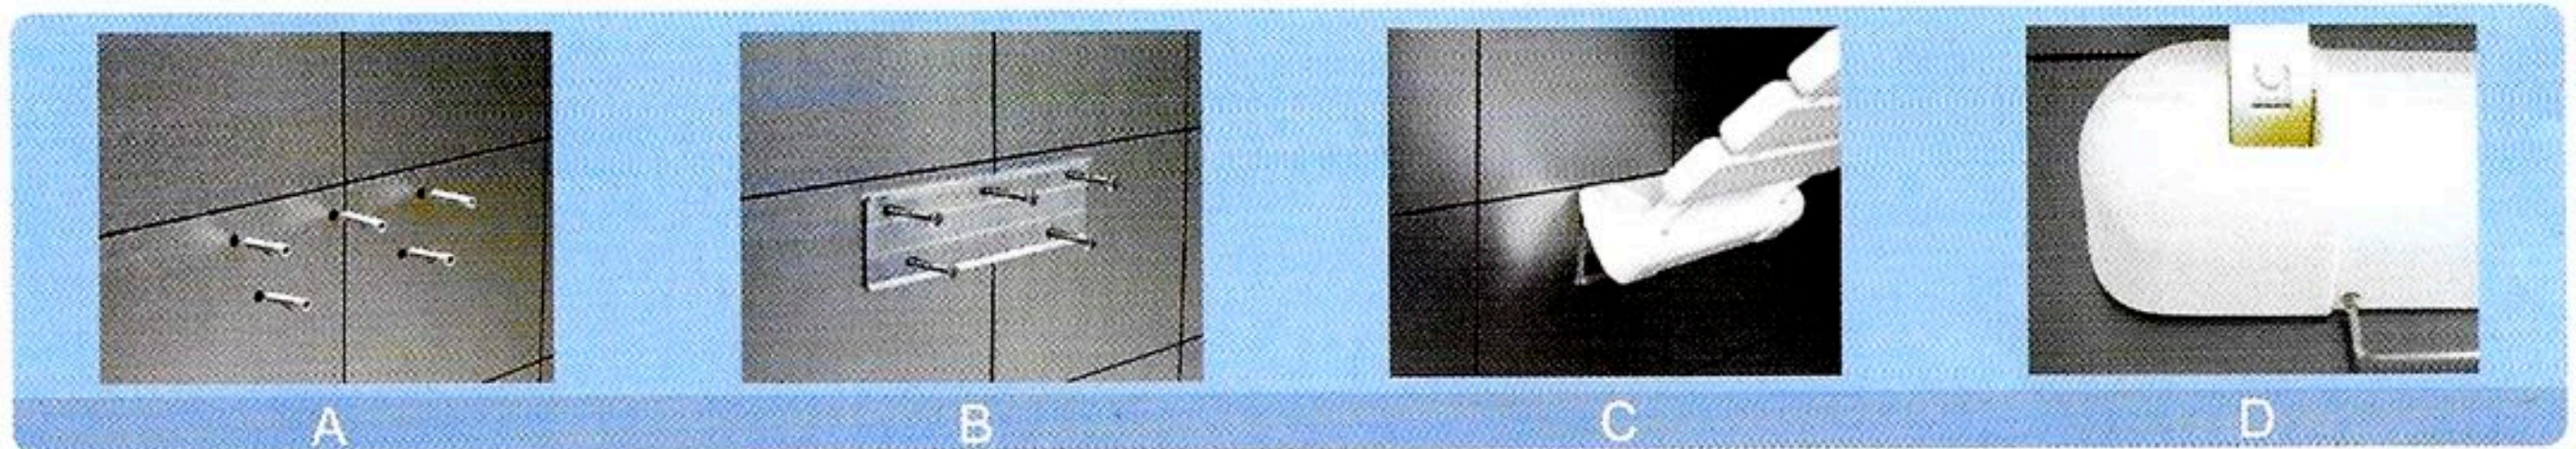

MODEL D

Spare parts List:

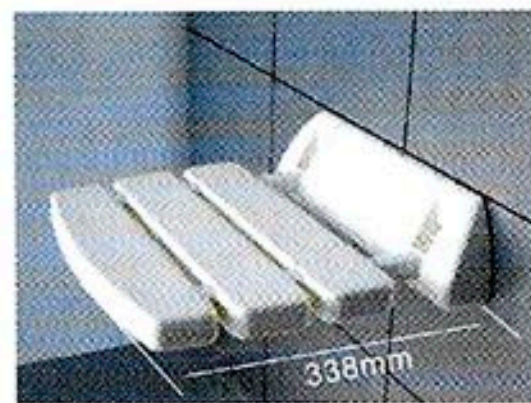

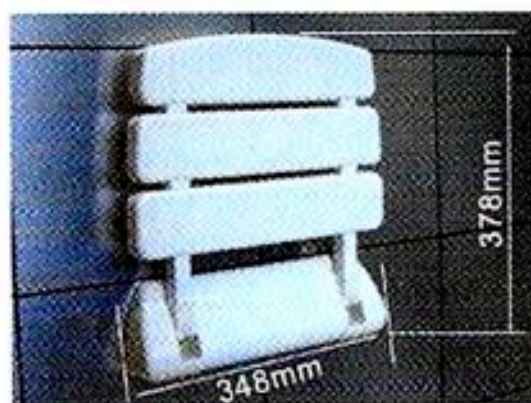

Installing steps:

- keep the plane of Fixing board [04] towards the wall and place it on the wall level (Note: the edge with three holes of Fixing board [04] should be up) and the recommended upright height from the bottom of Fixing board [04] to Floor is 400-500mm. Mark down the screw holes and take down the Fixing board [04] so as to drill five holes with the depth of 60mm and diameter of 8 mm and place the rawlplug [02] into the holes.
- Put the Fixing board [04] onto the original place once again and screw down the expand screw [03] and fasten them.
- Button the Main body for shower seat [01] downwards absolutely from the upper part of Fixing board [04] until the inner side on the bottom of Main body for shower seat [01] touches the wall and keep the pedestal made of aluminium alloy material on the Main body for shower seat [01] and the two ends of Fixing board [04] orderly.
- Screw down two pcs of 5*8mm Hex socket Grub Screw [05] inserted on the underside of Main body for shower seat [01] with the supplied Hex socket spanner.

Dimensional drawing:

Packing List:

Serial No.	Name of components	Quantity	Remark
