

# **vibration Burglar Alarm**

## **LA84**

### **1. Technical parameter:**

- working voltage: DC 9V (9V alkaline cell )
- alarm volume: 120dB
- Sensing method: vibration Alarm
- power on delay: 15 Second
- Alarm time delay: 30 Second
- Installation: Magnetic or suspension
- Product dimension: 90×55×27mm
- Packing dimension : 95×57×33mm

### **2.Features:**

- 1).free of installation, easy to operator
- 2).vibration detect technology.
- 3).Real-time alarm by vibrated.
- 4).high decibel siren frighten intruders.
