

Designed to enable one computer to be controlled by one or two users. Locate one set of keyboard/ monitor/ mouse up to 150 meters away from a computer or KVM switch using an inexpensive Category 5 UTP cable.

KVM Extender EUC (USB Console) Series

The KVM Extender consists of a Computer Unit and a Station Unit that enables you to locate a keyboard/monitor/mouse setup up to 150 meters away from a computer or KVM switch using an inexpensive Category 5 UTP (unshielded twisted pair) cable. This provides a convenient way to remotely access a computer located in a secure or not easily accessible environment.

The KVM Extender is designed to enable one computer to be controlled by one or two users. A single console can control two computers locally and remotely. This is the ideal solution for factories, construction sites etc, where computers in protected environments need to be accessed. With a variety of models to choose from, you can economically increase flexibility and meet your needs for USB-Ready and PS/2 systems. No software or dip switches are required, just plug and play. With one push button, two LED indicators and simple hotkey commands, you can manage this device with ease.

- ◆ Supports for USB keyboard and USB mouse
- ◆ Connects the Computer Unit and Station Unit via Category 5 UTP cable.
- ◆ Remotely locates the keyboard, mouse and monitor up to 150m from a computer.
- ◆ Supports USB-Ready and PS/2 computers for flexible choice.
- ◆ Video compensation can be adjusted by hotkey to ensure the optimum signal quality for any length of cable within the limit.
- ◆ Easy to get and install the standard cable at lower cost.
- ◆ Simple indication makes operation user-friendly.
- ◆ Locates the computer away from your desk and work area, saving you valuable space.
- ◆ Allows two users to share a single computer both in local and remote areas. (EUC-222, EUC-221).
- ◆ Applicable for one console to manage two computers locally and remotely (EUC-222, EUC-212).
- ◆ Beeps confirmation for key control makes the operation easier and cross-checked.
- ◆ Compatible with XGA, VGA, and SVGA system.
- ◆ The models with cable are available.
