

MA-820

MA-820 Memory Data Suite contains a 19-in-1 card reader and MediaExpert software. The slim and super 19-in-1 card reader can be compatible with almost all sorts of memory cards.

The MediaExpert software can help users to compose, edit and backup multimedia contents, such as Video Composer, MP3 Clipper, Photo Wizard, Picture Editor, Sound/Animation Composer and File Manager.

A perfect combination of this powerful management software and a multi-functional card reader provides users more mobile entertainment and convenience.

* New phones supported monthly, check www.mobileaction.com for software update.
