

Network Power Splitter SP125

Aviosys POE Adapter Kit simplifies your network installations process by combining both power and data all into one cable! The SP125 can be set up at the remote location of your choosing and it will be able to extract network data and power data from one single cable, then it will separate the Network data DC power into two separate outputs. No tools or software is necessary which makes, implementation of the SP125 extremely quick and easy. Not only is the SP125 easy to use, the special USB connector designed for the SP125 will output DC power to a wide range of devices from simple devices to a variety of electrical appliances which it supports.

Features

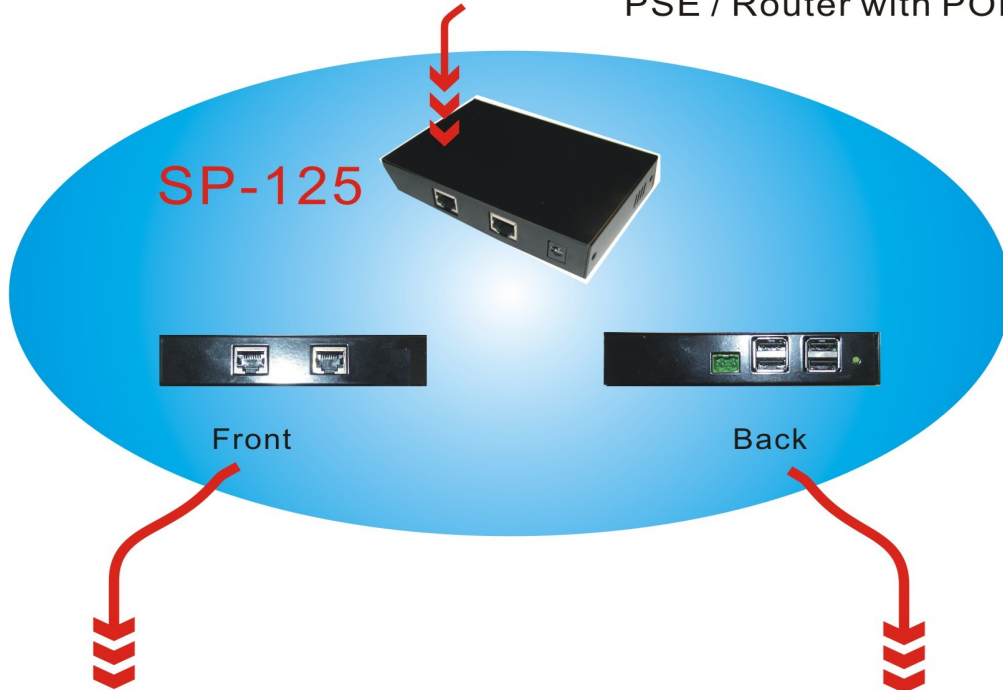

- Allows you to deliver power and data up to 328 ft away.
- Both power and data can be outputted by using a standard Ethernet cabling.
- Supports 802.3af ensuring compatibility with other 802.3af PoE compliant injector units or midspan switches.
- Offers selectable 5 V/12 V outputs up to 13W.
- USB type connector with 5 Volt design. Easy to use and install on a variety of electrical appliances.
- Metal casing designed for strong durability and good heat dissipation.

Specifications

- Standard 802.3af POE RJ45 port split into: 1 of Ethernet with RJ45 connector, 4 of 5V DC with USB connector: Current Max 2A.1 of 12V DC with terminal block: Current Max 1A. 80% Power Efficiency at $V_{in} = 48 \text{ VDC}$ and 100% Load. Dimension LWH: 120mm x 80mm x 25mm Weight 250mg Operating Temperature $0^{\circ} \sim +40^{\circ}$, Humidity Up to 90 %

PSE / Router with POE

Power & Network support to IP Kamera ,
USB Power for TV Game, Cell phone , iPOD, Speaker, Fans, Light & Warmer .
