

Monitor Stand POWER

FEATURES

- Integrated charging station for compatible wireless devices
- Four USB 3.0 ports for easy expansion of connection options
- Suitable for monitors, notebooks, Macbooks, and iMacs up to 20 kg
- Robust screen riser to assist proper sitting posture

WIRELESS CHARGING MADE EASY

Integrated Charging Station

With its ability to wireless charge compatible devices, the monitor stand will become the centerpiece on your desk.

Wireless Charging

The Monitor Stand POWER has an integrated charging station for the wireless charging of compatible devices. Smartphones or wireless mice can be simply placed on a contact area on the right side of the Monitor Stand POWER's top surface. The smartphone or mouse will then be automatically charged with an output power of 5 watts maximum.

COLOR VERSIONS

Available in color versions
black and grey.

PRACTICAL EXPANSION OF CONNECTIONS

With its integrated hub, up to four devices with
USB connections can be operated through the
Monitor Stand POWER.

OPTIMUM USE OF SPACE

Suitable for large monitors, various office equipment and increases desktop storage space

Made of steel and can support a max. load of 20 kg

Stable base thanks to four anti-sliding pads

Keep things tidy by simply storing peripherals underneath the stand.
