# FLEXIBLE 3D ADJUSTABLE ARMREST

Customizable to every arm length

Easily adjust the angles

Flexible height adjustment

# COMFORT FUNCTIONS

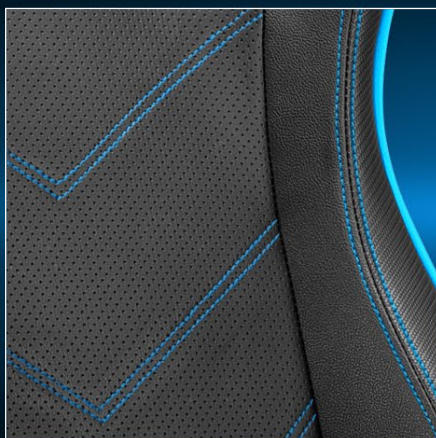

## Adjustment Handle

With the backrest adjustment handle, the backrest can be reclined and locked at an angle between 90° and 160°, providing relaxation after especially intensive gaming sessions.

## Conventional Tilt Function

The conventional tilt function of the ELBRUS 2 allows the user even better relaxation by offering a pleasant rocking chair-like atmosphere from 3° to 18°. It can even be used during intense gaming situations when feeling the urge to move around. If quieter is what you prefer, lock the conventional tilt function or regulate its intensity.

# ROBUST AND BREATHABLE

The ELBRUS 2 has been furnished with a breathable synthetic leather cover which is robust, easy to clean and offers a good hold even for very active users. The stitching not only provides color accents, but it is also of especially high quality and contributes to the durability of the cover. The fabric covers of the headrest and lumbar cushions can be washed at 30°C.
