

Wall Mounted Power Supply Center

ITEM NO.: PW408R, PW816R 12VDC REGULATED POWER SUPPLY

* 12VDC REGULATED POWER SUPPLY

1. PW408R → 8 Port Voltage output. PW816R → 16 Port voltage output.
2. Individual Green LED , ON→ Output ok, OFF→ output failed (check LOAD)
3. **Red LED ON→Major power supply normal, LED not light→Major power supply not normal (check output: power switch or fuse). If fuse failed, please change new fuse Fuse spec: 2 AMP/250V Dimension: 5.2 mm x 20 mm**
4. Input AC Voltage→ 100V ~ 240V, L = Live Wire, N = Neutral Wire, E = Earth Wire.
5. Output Voltage load: 12VDC Regulated at 4AMP.
6. Max Output Current: 4AMP (1CH~8CH) + 4AMP (9CH~16CH).
7. Individual output: standard output current 1AMP.
8. Individually protected PTC* auto reset output fuse.
9. Individual current protection: 1.1A, (2.5A/4sec.)
10. Built in surge protection.
11. At least need one second to auto rework after remove the overload status.
