

## CATV CAT5 Extender

ITEM NO.:

CATV CAT5 Extender

The CATV CAT5 Extender built in with a RJ45 with 2M RG6 coax cable which allows traditional 75-ohm coaxial cable to be replaced by a single pair Cat5e UTP cable. Used in pairs, it allows broadband CATV equipment to be integrated into structured cabling systems thereby allowing CATV equipment to be moved or added to any convenient modular wall outlet. It provides a versatile cabling solution for broadband video systems used by offices, schools, government, hospitals, hotels, even private homes.

The CATV CAT5 Extender works in conjunction with CATV splitters, amplifiers and cable modems for a total cabling solution.
