Power/Signal Amplifier

Product description

Support USB port, hotplug, plug and play, effectively solve the power shortage problem caused by the USB extension cable use.

Type and version: usb power amplifier USB2.0.

Data transmission: Standard 2.0 high speed.

Fit for wireless usb adapter, u-disk, camera, card reader, keyboard etc. high power-consumed products.

Features:

Up to 480Mbps high speed transmission rate; standard 2.0 interface with excellent electrical conductivity, built-in chipset.

Copper braiding and double-AL shielding, greatly lower the EMI and RI.

100% compliant with the current USB.

Durable case.

Twisted wire (**impedance-matched**), minimize the cable signal crosstalk, make sure the data transmission correctly and in high speed.

Quality: Qualified product passed five quality inspection test, lower the defective product.

Working Temperature: 0°C-40°C

Storage Temperature: -20°C-80°C

Working humidity: 10%--- 95% RH (Non-Condensing)

Storage humidity: 5%--- 95% RH (Non-Condensing)

Size: 53 *8* 15 mm

3. Operating in USB2.0 Scheme
