

Dr.COOL

MULTI FUNCTIONAL ROUTER COOLER

World's First Patented Router Cooler

Dr. Cool multi-functional router cooler was designed with three features in mind: branding, creative aesthetics and effective cooling which is where EVERCOOL pays special attention to, as well as taking into consideration user's feedback. This specialized cooler aims to prevent router or IP sharing devices overheat problems that may cause network instability and doing so by providing the best cooling solution. It has a unique multi-clip design, which makes it compatible with different sizes of router. Additionally it can be used on 2.5" portable hard disks, tablet PC, Netbook or other accessories. It is the most suitable alternative to prevent overheat damage and to extend the using life-time of all these devices.

[Patent No. : P097923 TAIWAN]

 MULTI FUNCTIONAL ROUTER COOLER

World's First Patented Router Cooler

INFORMATION

- World's first specialized cooler for Routers and IP sharing devices with unique design. (Patent No: P097823 Taiwan)
- Cooled by one 8cm long-life silent fan that provides suitable airflow to avoid router overheating and thus network instability.
- Dr. Cool prevents the damage caused by heat during long operations, and extends the router's or IP sharing device's life expectancy.
- It is fitted with a multi-clip design to attach it to the router, making it very easy for any user to install.
- Dr. Cool is a multi-functional cooler that can also be used on modems, 2.5" portable hard disks, tablet PCs, Netbooks and other computer accessories besides routers or IP sharing devices.
- Dr. Cool can be powered by either USB or a DC power transformer, making it more convenient for the use to pick one according to their personal needs or preferences.

Clip the router.

The retractable clip design.

Be powered by either USB or a DC power transformer.

For other devices

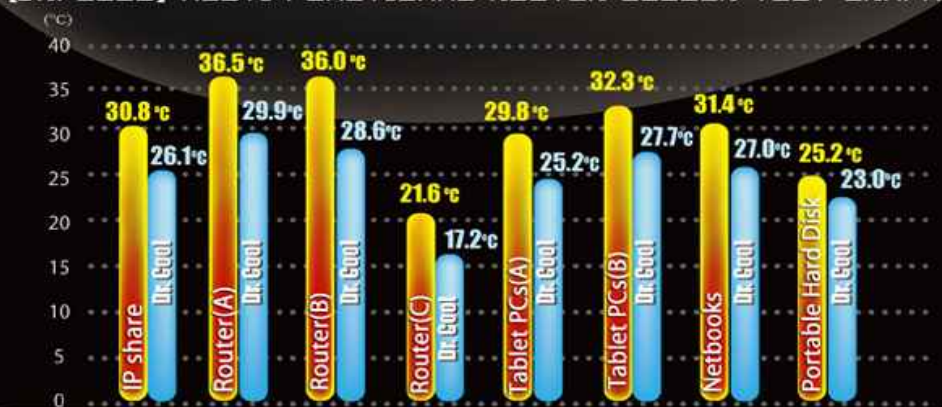

SPECIFICATION

Specification

Overall Dimension :	151 x 145 x 80 mm
DC Fan Size :	80 x 80 x 10 mm
Base Material :	Plastic
Rated Voltage :	5 VDC
Fan Speed :	2500 ± 15% RPM
Noise Level :	< 21 dBA
Bearing Type :	Long Life Bearing
Weight :	263 g
