8.SKILL SPECIFICATION

Power source:

1. The standard voltage: AC90v-260v, 50/60HZ
2. Power rating: 150AV/350AV
3. Channel: 12 standard DMX512 control channel
4. Lamp: High-power lamp which is import from foreign country
5. Standard of the switch power: 1.AC Output: DC 28V 2. current output: 6A/13A
6. Standard of the fan: volume: 90*90*25-60960*25 -DC120V/0.12A
7. Standard of the fuse: the fuse of the bottom: 3.15A/250V-5A/250V 5*20MM
8. Lamp: red: 1W/3W/5W 24pcs green: 1W/3W 28pcs blue: 1W/3W 28pcs
white: 1W/3W 28pcs
9. Size/weight: size: 460mm*335mm*385mm N.W: 9kg G.W: 11kg

9. Wave Beam

10. MAINTENANCE AND CLEANING

This moving LED must be kept clean basically, which means dust, dirt or draft of tobacco tar should not be stayed on/in the case, otherwise, it will sharply decrease the output of the moving LED. Regular cleaning can guarantee not only LED output but its life as well. It is suggested to be cleaned by soft cloth with premium glass detergent instead of using alcohol or solvent!

★Danger: Switch off power supply before any maintenance.

★The front glass is easily stained by the draft of tobacco tar, which will decrease light output, so it should be cleaned once a week. As for cooling fan, once a month.

★There is not any repairable part inside the device except for fuse.

★ Only franchisers have the right for maintenance.

★ Change of Fuse

When the bulb is burnt, the fuse might also be burnt at the same time. Only the fuse with same model and class need to be changed.

★Switch off power supply before changing fuse.
