

### Description

DisplayPort Splitter Distribution allows multiplication of a single DisplayPort equipped video and audio source (audio performance depends on equipment) to multiple DisplayPort equipped displays.

Multiple monitors can be set as either master or slave function and the users is capable to combine up to 3 DisplayPort monitors as a single display for a panoramic view.

Plug and play for easy installation requires no software installation.

DisplayPort Splitter Distributions are designed for high end user requiring high quality digital multiple displays, such as presentation, gaming, graphic design etc.

### Features

- Supporting 1 to 3 Out DisplayPort Splitter Output function
- Supporting two graphics card working together
- Supporting resolution up to 3840P
- Supporting one panoramic view expand up to multiple monitors
- Supporting TV Wall function

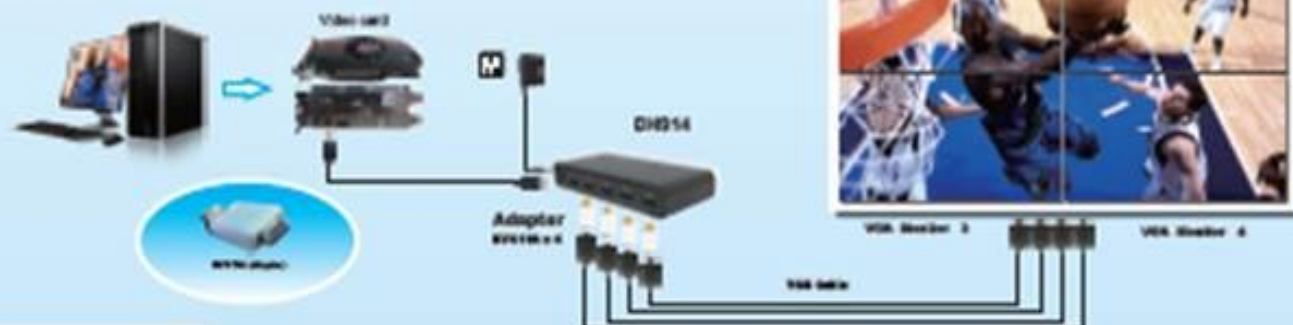

### Application

Model	Output	Output	Output	Output	Output
DP1001	DisplayPort	DisplayPort	DisplayPort	DisplayPort	DisplayPort
DP1002	DisplayPort	DisplayPort	DisplayPort	DisplayPort	DisplayPort
DP1003	DisplayPort	DisplayPort	DisplayPort	DisplayPort	DisplayPort
DP1004	DisplayPort	DisplayPort	DisplayPort	DisplayPort	DisplayPort
DP1005	DisplayPort	DisplayPort	DisplayPort	DisplayPort	DisplayPort
DP1006	DisplayPort	DisplayPort	DisplayPort	DisplayPort	DisplayPort
DP1007	DisplayPort	DisplayPort	DisplayPort	DisplayPort	DisplayPort
DP1008	DisplayPort	DisplayPort	DisplayPort	DisplayPort	DisplayPort
DP1009	DisplayPort	DisplayPort	DisplayPort	DisplayPort	DisplayPort
DP1010	DisplayPort	DisplayPort	DisplayPort	DisplayPort	DisplayPort
