

## **Caption.Ed Compatibility**

Caption.Ed is available as desktop, web and mobile applications. This document outlines the minimum standards required to use Caption.Ed. These standards apply to all Caption.Ed license types, Notes, Lite and Pro.

### **Caption.Ed Desktop Application on Windows**

We recommend running Caption.Ed Desktop on Windows 10 or 11. Caption.Ed is compatible with any desktop applications include Zoom, Teams, Facetime and more.

### **Caption.Ed Desktop Application on Mac**

We recommend running Caption.Ed Desktop on Big Sur or Monterey. Caption.Ed is compatible with any desktop applications include Zoom, Teams, Facetime and more. Please be aware that the sound setting on Mac can occasionally cause issues and should this occur please contact our helpdesk on [help@caption-ed.com](mailto:help@caption-ed.com).

### **Caption.Ed on Mobile**

We recommend running Caption.Ed on the latest iOS and Android operating systems. The application on mobile is stand alone and does not interact with any third party apps.

### **Caption.Ed on the Web**

We recommend using the Caption.Ed Notes Editor on the web through the latest Google Chrome or Microsoft Edge browsers.

### **Caption.Ed Browser Extensions**

Caption.Ed provides browser extensions for Google Chrome and Microsoft Edge. These extensions only provide captioning and do not provide note taking functionality. For note taking, please use the desktop or mobile applications.

For information regarding system requirements, please visit [caption-ed.com](https://caption-ed.com) and download our minimum system requirements documentation.
