In Nursing News

Our May Wine Down session was focused on the RaDonda Vaught criminal case and the impact of criminalizing medication errors. We had a great discussion with fellow nurses and hospital administrators. I'm including resources for you to use to educate yourself, your staff, students, and anyone who is interested. I also want to correct a typo from last month's newsletter. I mentioned that Vanderbilt Medical Center filed a 150-page correction plan. It was 105-page correction plan. I apologize for the typo!
