Arrowquip's Cattle Crowding Tubs are a high-capacity, high-quality product, designed to help you move your cattle quickly and safely into a cattle chute, alley, or truck. The Arrowquip Cattle Crowding tub features a heavy-duty HHS tube frame that is lightweight yet durable and corrosion-resistant. The unit includes a crowd gate lockout and standard exit gate, and distractions are kept to a minimum as cattle move through the tub due to 14-gauge steel sheeting. For operator ease, this crowding tub comes easy to assemble in only 4 parts. Designed and built with efficient cattle handling in mind.
