

ADJUSTABLE EASY FLOW

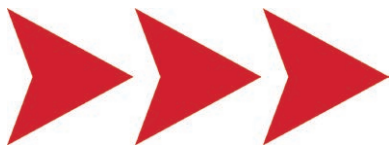

CATTLE ALLEY

ARROWQUIP

ARROWQUIP

ADJUSTABLE EASY FLOW CATTLE ALLEY

ACCOMMODATE ANY SIZE CATTLE WITH AN EASY ADJUSTMENT

PRODUCT CODE: E-10_4

WEIGHT: TBD

Arrowquip's Adjustable Easy Flow Cattle Alleys are fully adjustable and cradle-shaped to accommodate animals of any size. They have been designed around animal science and keeping cattle distractions to a minimum. The optional anti-backing device helps prevent cattle from rearing up or attempting to turn back. Both sides of the alley can be fully opened in case of an emergency, and it has a 4 spring-load locking system that makes it easy to adjust to any size required. Sides are sheeted to reduce any risk of

the cattle's legs being caught or injured. The Easy Flow Alley is built with durable locking pins that allow each 10' section to be connected with other Arrowquip products to create the customized system you require. Like all Arrowquip Alleys, it is built to last with 14-gauge steel side sheeting.

Arrowquip's Adjustable Easy Flow Cattle Alley offers great control over the animal without stress. It is easy, adjustable, and will keep both rancher and cattle safe.

A: ADAPTABLE

- Durable panel clips that allow the alley to connect with other Arrowquip products.

B: ADJUSTABLE

- Cradle-shaped to accommodate animals of any size.
- 4 spring-load locking system that makes it exceptionally easy to adjust to fit each animal.

C: SAFETY IN MIND

- Alley sides are sheeted to the ground to eliminate foot traps.
- Anti-backing system to stop cattle from moving backward.
- Both sides of alley fully open in case of emergency.

Arrowquip strives to make the world's most innovative cattle handling equipment through extensive research, animal science, real world testing, as well as listening to you, the rancher. Constantly striving to make the rancher's life easier, the animal-handling process quicker, and your ranch more profitable, Arrowquip will never settle for less than innovative. Often recognized as offering the world's most innovative cattle equipment, Arrowquip continues to challenge the industry and the way people think of the livestock handling process.

With the industry's only full-time team of engineers dedicated to only the cattle handling process

and the animal science behind it, Arrowquip is constantly developing new products that follow the correct livestock handling principles. This process has allowed Arrowquip to develop livestock equipment in a class all its own, with the lowest rate of livestock injury, rated the best in rancher safety and proven to increase the ranch's profitability. All never before seen in our industry.

It doesn't matter if you're a small cow-calf rancher, or a large feedlot, Arrowquip will have the most innovative equipment available ensuring that your ranch is operating at maximum efficiency, resulting in higher profits and more time to do the things that truly matter to you and your family.
