

ADJUSTABLE EASY FLOW DOUBLE CATTLE ALLEY MERGE SECTION

PRODUCT CODE: EF-MS

The Double Cattle Alley Merge Section is designed to safely double the capacity of the alleys in your handling system when combined with 10' Easy Flow Alleys. The sides of the alley merge section are sheeted to the ground to eliminate foot traps, and the spring-loaded swing gate allows cattle to move through the alleys efficiently. Additionally, the Alley Merge Section features heavy-duty locking pins, making for seamless connection with your complete cattle handling system.

Arrowquip's 10' Easy Flow Alley sections are cradle-shaped and fully adjustable to accommodate cattle of any size. With easy adjustments, excellent animal control, and the utmost in animal safety, the Adjustable Easy Flow Double Cattle Alley System is an effective way to double your alley capacity when space is limited.

SPECIFICATIONS:

- Cradle-style alley merge section
- Spring-loaded swing gate
- Sheeted sides go to the ground
- 14-gauge steel and heavy-duty frame are designed to withstand any weather conditions and provide years of reliable use
