

VET CAGE

PRODUCT CODE: VET

Arrowquip's Vet Cage provides a safe environment for veterinarians to do their important work, whether it is a routine checkup, insemination or pregnancy check, or any type of health intervention. It features a set of sheeted doors that prevents the animal being treated from becoming distracted during the procedure, while allowing access for your vet to do their work. Arrowquip's Vet Cage is constructed with high-quality steel for superior resistance to the elements, and also acts as an ideal pass-through door that can be used at any point of your cattle handling system.

SPECIFICATIONS

- Made from high-quality steel for superior resistance to elements.
- Sheeted doors to prevent distractions of the animal when they are being treated.
