

**A Leader in K-9 Education**

## Vaccinations

*Help us keep all dogs happy and healthy*

### Required:

Bordetella\*\*\*

DHPP

Leptospirosis (Lepto)\*\*\*

Rabies

### Highly Recommended:

Canine Influenza Vaccination

Current negative Fecal

Heartworm/Flea/Tick Prevention

In order to keep our facility clean and free of pathogens, we sanitize and disinfect daily and throughout the day as needed. For the safety of all dogs please provide proof of health records in order for us to be able to accept your dog.

**\*\*\* Please be advised that not all veterinary clinics give these vaccines along with the annual vaccination and you may need to request them. Please double check that your dog is protected.**

## Things to Bring for Boarding

Bring enough food while your pet is boarding with us. It is encouraged that clients provide an additional 4 days' worth of food since your dog may eat more due to increased activity.

We do not recommend bringing a bed as being away from home and in a kennel environment may cause your dog mild anxiety, resulting in chewing and destroying the bed.

Additional items such as toys, leashes, etc. are not necessary during your dog's stay with us. CFK9 is not responsible for lost or damaged items.

**Please make sure all food/medication is clearly labeled with your dog's name.**
