EXPLORING
GLOBAL
ECONOMICS AND
CAREER
OPPORTUNITIES

MONDAY, OCTOBER 28TH &
TUESDAY, OCTOBER 29TH
MONTANA STATE UNIVERSITY

ABOUT THE EVENT

EconoQuest is an international economics program that culminates in a multi-day conference which provides a unique opportunity for Montana high school students to engage with local businesses, government leaders and international leaders. They explore and discuss the impact of global dynamics on Montana's economy and learn about career opportunities in Montana. In 2023, over 400 students participated in the EconoQuest platform. Students gained knowledge and understanding of basic economic theory, international trade and the impact of global dynamics on our economy.

EconoQuest virtual program is designed for middle school and high school students. Industries introduced to students are Photonics and Quantum, Cloud Computing, Agriculture, Outdoor Economy, Semiconductors, Manufacturing, Bioscience, and Energy and Extractives. EconoQuest is offered free to all students.

2024 countries of focus will be India and ASEAN countries.
