

SCAVENGER HUNT

1) I was once a rare sight to see but now that DDT is banned I am making a comeback. If you look in the trees you may see my nest. It is one of the largest ranging from 5 to 6 feet in diameter and 2 to 4 feet tall. What am I? _____

2) I redistribute nutrients for both plants and animals creating a positive ripple effect on the ecosystem. What am I? _____

3) Don't let my size fool you, I can run at speeds of 30 miles an hour. I am also a top predator but I tend to eat a lot of fruit and nuts. What am I? _____

4) There are only between 400 and 500 of us left in the wild. We travel many miles to hunt and can eat up to 60 pounds of food in one night. What am I? _____

5) I am the largest member of the Kingfisher family. What am I? _____

6) My large nose warms the mountain air before it reaches my lungs. What am I? _____

7) My paws act like natural snowshoes and my eyesight is strong. I can see a mouse that is 250 feet away. What am I? _____

8) I am built for the water. Not only can I hold my breath under water for eight minutes but my tail helps propel my body while swimming. What am I? _____

9) I am a descendant of the Red Jungle Fowl. If you look carefully at my head and you may see a comb. What am I? _____

10) No need to fear me, my only defense is pushing air out of spiracles to create a hissing sound. I am also responsible for helping keep the rainforest healthy. What am I? _____
